

WELLGRO SYSTEMIC FERTILIZER

Contains DI-SYSTON®

Active Ingredients (for insect control)	
O,O,Diethyl S-[2-(ethylthio)ethyl] phosphorodithioate	1.00%
Inert Ingredients	99.00%
Total	100.00%
U.S. Patent No. 2,759,010	

CORN: For control of Aphids, Mites, Leafhoppers, Flea Beetles and Thrips apply at rate of 100 lbs. (1 lb. actual insecticide based on 40" row spacing) per acre. Apply at planting time, furrow application. For post-planting side dressing treatment on corn, the crop must NOT be used for feed, food, ensilage, or forage within 100 days of treatment. Only one application may be made per season.

POISON

DANGER!

Keep out of Reach of Children.

Poisoning may occur as a result of exposure. May be fatal if swallowed. May be absorbed through skin. Do not breathe dust. Avoid contact with skin, eyes, or clothing. Do not contaminate feed or food. Wash thoroughly after handling. Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fire.

Product is toxic to fish and wildlife. Keep out of lakes streams, or ponds. Do not apply where runoff is likely to occur.

TO PHYSICIAN: Atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

DIRECTIONS: DI-SYSTON is a systemic insecticide that enters the plant through the root system. The insecticide when placed near the roots, is picked up and moves in the sap stream to all parts of the plant where it kills insects as they feed on the plant.

DRY BEANS: For control of Aphids, Leafhoppers, Mexican bean Beetle larvae, Mites or Thrips, apply at rate of 100 lbs. (1 lb. actual insecticide) per acre. May be used as side-dress on each side of row after plants become established but not within 60 days of harvest. Do not apply more than once per season. When used at planting time, adverse weather conditions will cause some damage to plants. It is not recommended for use in light, sandy soils at planting time.

INGREDIENTS AS PLANT FOOD:

Total Nitrogen	— %
Available Phosphoric Acid	— %
Water Soluable Potash	— %

PATENT LICENSE

The principal active insecticidal ingredient of this product is patented under U.S. Patent No. 2,759,010 of Chemagro Corporation, Kansas City, Missouri, and the purchase of this product includes a limited license under said patent to use or reformulate the product only in the manner provided by the recommended applications on the present label. The purchaser obligates itself to notify Chemagro Corporation of any proposed use or reformulation of such licensed product not provided by said recommended applications, and to obtain Chemagro's approval in writing before making any such use or reformulation of the licensed product. Any use, or reformulation of the licensed product in the home and garden field is specifically prohibited by said license.

NOTICE: Buyer assumes all risk of use, storage, or handling of this product when not in strict accordance with directions given herewith.
