

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

CAUTION, Keep Out of Reach of Children. Avoid contact with skin, eyes or clothing. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Wash thoroughly with soap and water after handling.

(If container is 5 gallons or larger the following statement must appear on the label)

ENVIRONMENTAL HAZARD

This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

(If container is less than 5 gallons use the following environmental hazard statement.)

ENVIRONMENTAL HAZARD

This product is toxic to fish.

(If the container is greater than one gallon use the following storage and disposal statements)

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal

PESTICIDE STORAGE: Store in original opaque containers and place in locked storage area. Keep from freezing.

SPILL OR LEAK PROCEDURES: Small spills may be mopped up, flushed away with water or absorbed on some absorbent material and incinerated. Large spills should be contained; the material then moved into containers and disposed of by approved methods for hazardous wastes.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL (Larger than 1 gal.) – Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. In addition, plastic containers may be disposed of by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

(If container is one gallon or less use the following storage and disposal statements)

STORAGE AND DISPOSAL

Store in original opaque container in areas inaccessible to small children. Keep from freezing. Do not reuse empty container. Wrap and discard in trash (or recycle).

ALGAESIL

FOR THE CONTROL AND DESTRUCTION OF ALGAE AND ALGAL SLIME

ACTIVE INGREDIENTS:

Colloidal Silver as elemental0.80%

INERT INGREDIENTS:99.20%

TOTAL100.00%

Weight approx. 8.33 lbs./gallon

KEEP OUT OF REACH OF CHILDREN

CAUTION

Will stain clothing and concrete in concentrated solution

See left panel for additional precautionary statements

First Aid

Have the product container or label with you when calling a poison control center or doctor, or going for treatment

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Rodenticide Act as amended, for the
pesticide, registered under
EPA Reg. No. 10324-18

NET CONTENTS

BATCH NO

This product activates the floor and walls of swimming pools, giving them a residual and continuing algaecidal action.

This product is tasteless, odorless and non-foaming at pool concentration and may reduce other chemical usage.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INITIAL APPLICATION FOR SWIMMING POOLS:

1. Clean tile on pool.
2. Backwash filter.
3. Disconnect slide and automatic pool cleaner from pool support system.
4. Adjust pH to 7.2-7.4 range.
5. Raise chlorine residual to 3 ppm.
6. Wait 15 minutes after adding chlorine.
7. Add Algaesil through skimmer at the rate of 8 oz. every 10 minutes until the recommended dosage of 8 oz. of Algaesil per 10,000 gallons of pool water is reached. If pool has no skimmer, add Algaesil below water level in front of return by squeezing bottle at the same rate mentioned above.
8. Keep filter in operation during treatment and for a minimum of 72 hours after treatment.
9. For best result, keep filter in operation until condition clears.

MAINTENANCE APPLICATION FOR PREVENTION TREATMENT OF NON-VISIBLE ALGAE:

For best results, perform maintenance application on a weekly basis.

1. Clean tile on pool.
2. Backwash filter.
3. Disconnect slide and automatic pool cleaner from pool support system.
4. Adjust pH to 7.2-7.4 range.
5. Raise chlorine residual to 3 ppm.
6. Wait 15 minutes after adding chlorine.
7. Add Algaesil through skimmer at the rate of 4 oz. every 10 minutes until the recommended dosage of 4 oz. of Algaesil per 10,000 gallons of pool water is reached. If pool has no skimmer, add Algaesil below water level in front of return by squeezing bottle at the same rate mentioned above.
8. Keep filter in operation during treatment and for a minimum of 72 hours after treatment.
9. For best result, keep filter in operation until condition clears.

FOR WINTERIZING BEFORE FREEZING:

1. Clean tile on pool.
2. Backwash filter.
3. Disconnect slide and automatic pool cleaner from pool support system.
4. Adjust pH to 7.2-7.4 range.
5. Raise chlorine residual to 3 ppm.
6. Wait 15 minutes after adding chlorine.
7. Add Algaesil through skimmer at the rate of 8 oz. every 10 minutes until the recommended dosage of 48 oz. of Algaesil per 10,000 gallons of pool water is reached. If pool has no skimmer, add Algaesil below water level in front of return by squeezing bottle at the same rate mentioned above.

8. Keep filter in operation during treatment and for a minimum of 72 hours after treatment.
