Notification

Dear Velma,

This is a Notification for a label change per the Container Rule (40CFR 156) and does not require a fee.

Enclosed are the following items:

1. **Application/Notification form** – for Maquat[®] MC6025-10% (10324-76)
2. **One (1) copy of all labels** – for Maquat[®] MC6025-10% (10324-76)

We are **changing the storage and disposal statements on our label per 40CFR156**. Per a letter from Nancy Fitz to the Biocides Panel (of which we are a member), we understand that AD will now be accepting our statements but will be looking to change them in the future. We are directly copying the wording provided in the Container Rule as applicable and are asking that you accept it at this time in order to comply with the ruling's deadline. In addition, we have also added residue instructions per your letter dated 9/4/09.

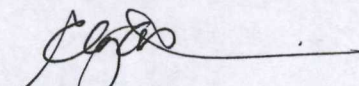

This product are used with different kinds of containers. Therefore, we have included all applicable language on these labels in order to give our distributors/supplemental registrants a choice in the language they will need for their container. We are asking that you accept all of the container language we are proposing at this time.

These are the ONLY changes/additions being made at this time.

If you have any questions or need any further information, please do not hesitate to contact me at (800) 362-1855 or liz@maquat.com. Your prompt attention to this matter is most appreciated.

Very truly yours,

MASON CHEMICAL COMPANY
