

Ms. Elizabeth Tannehill  
721 W. Algonquin Road  
Arlington Heights, IL 60005

FEB -7 2008

Subject: Maquat 64 PD  
EPA Registration No.: 10324-93  
Stamped accepted label dated: December 5, 2007

Dear Ms. Tannehill,

This correspondence is intended to correct the Agency comments associated with the stamped accepted label as referenced above. The Agency letter of December 5, 2007 is now corrected to read as follows:

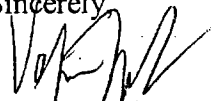

11. No correction is necessary in the Virucidal Performance section for effectiveness against *Feline Calicivirus* at this time. The previous comment #11 in the December 5, 2007 letter should be disregarded.

13. No correction is necessary in the heading "For Disinfection and to Control the Growth of Mold and Mildew on Non-Porous Athletic Equipment." The previous comment #13 in the December 5, 2007 letter should be disregarded.

26. The comment #26 stands as written. This comment brought the "Directions for Alternative Containers" section of the label into agreement with the four ounce label on page 18. In the future, it is suggested that the "Directions for Alternative Containers" section could be made open ended such as "pour contents of X oz packet into X gallons of water." This would allow this section to be in agreement with all small package labels which may appear at the end of each master label. Additional small packet sizes may be added by notification.

Please make these corrections to the label for this product. Should you have any questions concerning this letter, please contact Tracy Lantz at (703) 308-6415.

Sincerely

Velma Noble  
Product Manager (31)  
Regulatory Management Branch I  
Antimicrobials Division (7510P)
