Ms. Elizabeth Tannehill
Mason Chemical Company
721 W. Algonquin Road
Arlington Heights, IL 60005

MAR 28 2012

Subject: Maquat® FL-1 and Maquat® FL-2
EPA Registration No.: 10324-137 and 10324-138
Application Dated: January 20, 2012
EPA Receipt Date: January 26, 2012

Dear Ms. Tannehill,

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), section 3 (C) (7) (A) as amended, is acceptable with comments.

- Addition of Spanish and English statements
- Correction of reviewer note
- Addition of container explanation in Storage and Disposal section
- Addition of icons

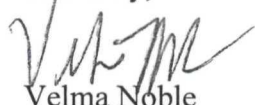

Conditions

- For Swimming Pool use And Decorative Fountains and Pools in nonrefillable containers up to and including 5 gallons revise language to read; "Do not reuse empty container. *Triple rinse (or equivalent).* Wrap and discard in trash (or recycle)".

General Comments

A stamped copy of the accepted labeling is enclosed. Submit one (1) copy of your final printed labeling before distributing or selling the product bearing the revised labeling. Should you have any questions concerning this letter, please contact Emilia Oiguenblik at (703) 347-0199 or Velma Noble at (703) 308-6233.

Sincerely,

Velma Noble

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION FOR SWIMMING POOLS

Ensure all pool equipment is working properly. Backwash the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. In outdoor chlorine treated pools, add stabilizer to establish a minimum level of 40-50 ppm to reduce the degradative effects of sunlight upon the chlorine residual. Check for metals and if present add a stain and scale inhibitor to prevent staining of pool surface due to metal. Maintain sanitizer residual in accordance with label directions found on your sanitizer of choice. This product is effective in controlling the growth of the following types of algae: *Chlorella pyrenoidosa* (green algae), *Phormidium inundatum* (blue-green algae) and *Phormidium ritzii*. When using other products as outlined in directions for this product, always follow directions on those products.

1. DOSAGES – For pools that are free of algae or contain algae growth.

Initial Application: For an initial application, pour directly into pool at a rate of 32 ounces of this product per 12,250 gallons of water (2 ppm) or ratio thereof. More rapid distribution will be achieved by pouring a portion of the specified amount into several areas of the pool until all of the required quantity has been added. Recirculation accomplished by running the filter will assure rapid dispersion of product.

Maintenance: Pour directly into pool at a rate of 16 ounces per 25,000 gallons of water (0.5 ppm) or ratio thereof every 5-7 days depending on weather and use factors. After each rain of consequence, add 32 ounces per 50,000 gallons water. Even when the pool may not be in use for periods of time, algaecide additions should be made since a heavy accumulation of algae growth is difficult to remove. The appropriate amount of this product should be added by pouring a portion of the specified amount into several areas of the pool until the required quantity has been added. Recirculation accomplished by running the filter will assure rapid dispersion of product.

2. Reentry interval: Swimmers are allowed to re-enter the pool 15 minutes after application of the product.

3. Ensure that water quality conditions are maintained for the successful use of the product.

Gallons of Water	Initial Treatment	Maintenance Dose
20,000	51.2 ounces	12.8 ounces
25,000	64.0 ounces	16.0 ounces
30,000	76.8 ounces	19.2 ounces
40,000	102.4 ounces	25.6 ounces
50,000	128.0 ounces	32.0 ounces

OR

(Usage chart for one-quart containers)

Gallons of Water	Initial Treatment	Maintenance Dose
5,000	12.8 ounce	3.2 ounces
10,000	25.6 ounces	6.4 ounces
12,250	32.0 ounces	8.0 ounces

How to measure the gallon capacity of your pool:
Measure Length (L), Width (W), and Average Depth (D) in feet.

For Square or Rectangular pools: L xWxDx7.5 = gallons
For Circular or Elliptical Pools: LxWxDx5.9 = gallons

FOR WINTERIZING POOLS BEFORE FREEZING

This product aids in the prevention of algae in swimming pools during the winter months, when the pool is out of service. This product may be used in pools sanitized with chlorine or bromine. Test the water and adjust to the proper levels. After pool is no longer in use, super-chlorinate, using a recommended winter shock treatment, according to label directions. Allow pump to circulate for several hours or overnight. Add winterizing algaecide directly to pool water, walking around the pool, so that it is evenly distributed. Use at the rate of 32 ounces (4 ppm) per 6,250 gallons or ratio thereof. Allow water to circulate for 2-4 few hours. Clean pool water line, shut down filter, drain pump, and winterize as per manufacturer's instructions. Cover with a solid cover if possible. Pools without a solid cover may need a second treatment later in the non-swimming season.

(Note to reviewer: The title and first statement of this section must appear on every label, followed by the appropriate Storage and Disposal section.)

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

(For Swimming Pool Use and Decorative Fountains and Pools in nonrefillable containers up to and including 5 gallons)

Nonrefillable container. Store in original container in areas inaccessible to small children. Keep from freezing. Do not reuse empty container. Wrap and discard in trash (or recycle).

(For Swimming Pool Use and Decorative Fountains and Pools in containers over 5 gallons)

PESTICIDE STORAGE: Store in original containers and place in locked storage area. Keep from freezing. Do not contaminate water, food, or feed by storage or disposal.

SPILL OR LEAK PROCEDURES: Small spills may be mopped up or flushed away with water or absorbed on some absorbent material and incinerated.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container (bottle, cans, jars). Triple rinse (or equivalent). Then dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

Made in USA

(Optional – for use on residential use swimming pool products.)
