OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Subject: Kling
EPA Registration No.: 10324-218
Amendment Date: October 5, 2012
EPA Receipt Date: October 9, 2012

Dear Ms. Tannehill,

The following amendment submitted in connection with registration under FIFRA, as amended, is acceptable.

Proposed Amendment

- Update basic and alternate CSFs to reflect correct active and inert ingredient suppliers

General Comments

The Confidential Statements of Formula for Formulas 1 and 2 dated 12/17/2012 are acceptable.

A stamped label with conditions is enclosed for your records. Submit 1 copy of your final printed labeling before distributing or selling the product bearing the revised labeling.

If you have further questions concerning this letter, then please contact me by telephone at (703) 308-6416 or by e-mail at campbell-mcfarlane.jacqueline@epa.gov or Stacey Grigsby by telephone at (703) 305-6440 or by email at grigsby.stacey@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Jacqueline Campbell".

KLING

Net Contents: Hospital Disinfectant
Batch No: Disinfectant Cleaner for Glazed Porcelain Toilet Bowl / Urinals - with Organic Soil Tolerance

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Harmful if absorbed through the skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wear goggles or face shield. Wear protective clothing and rubber gloves. Wash hands thoroughly before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

(If container is 5 gallons or larger the following statement must appear on the label.)

ENVIRONMENTAL HAZARD

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store only in original container inaccessible to persons unfamiliar with its use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then offer for recycling if available or puncture and dispose in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

 - Dioctyl Dimethyl Ammonium Chloride.....0.0075%
 - Alkyl (C-14, 50%; C-12, 40%; C-16, 10%) dimethyl benzyl ammonium chloride.....0.0200%
 - Hydrogen Chloride.....9.0000%
- INERT INGREDIENTS:** 90.9500%
- TOTAL**.....100.0000%

**KEEP OUT OF REACH OF CHILDREN
DANGER PELIGRO**

See (left) (back) (side) (right) panel (of label) (below) for additional precautionary and first aid statements.

FIRST AID

IF ON SKIN OR CLOTHING: Immediately take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

DESCRIPTION: This disinfectant cleaner is designed for Hospital, General Industrial, and Institutional use. It may be used to clean and disinfect toilet bowls, urinals, glazed porcelain, sinks, bathtubs, shower tile, and glazed ceramic tile floors. Its broad spectrum activity cleans, deodorizes, and disinfects in one easy step.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

TO CLEAN AND DISINFECT TOILETS AND URINALS: Remove water from bowl by forcing it over the trap with a swab mop. Saturate swab with disinfectant cleaner and wet all surfaces thoroughly. It is most important to swab under rim of bowl or urinal to clean and disinfect water outlets. Allow this disinfectant cleaner to remain for at least 10 minutes until all rust, scale, and stains are loosened. Rinse by flushing.

TO CLEAN AND DISINFECTANT SINKS, BATHTUBS, SHOWER STALLS, DRINKING FOUNTAINS, AND GLAZED CERAMIC TILE FLOORS: Dilute one part of this disinfectant cleaner with two parts water and apply to wet all surfaces thoroughly with swab mop, sponge, brush, or cloth. Allow disinfectant cleaner to remain for at least 10 minutes. Rinse after cleaning.

FOR HEAVILY SOILED AREAS: A preliminary cleaning is required before disinfection can occur. At a dilution of one part disinfectant cleaner to two parts water, this product has shown broad spectrum activity against microorganisms commonly found in toilet bowls and urinals and has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution Test: PSEUDOMONAS AERUGINOSA, SALMONELLA ENTERICA, STAPHYLOCOCCUS AUREUS.
