RYCHEM 812 SLIMICIDE

COMPOSITION

ACTIVE INGREDIENTS	
Nabam (Disodium ethylene bisdithiocarbamate)	22%
INERT INGREDIENTS	78%
Total	100%

DIRECTIONS FOR USE

Rychem 812 is used industrially for controlling the growth of bacteria and fungi. Specifically, it controls the growth of slime forming organisms in paper mills. It is recommended for slime control in white water and the preservation of pulp stock. The dosage rate varies between 0.4 and 2.0 pounds per ton of pulp or paper produced depending on mill conditions. Detailed information on application procedures will be furnished on request.

CAUTION: Keep out of reach of children. May cause skin irritation. Avoid contact with skin and eyes. In case of contact, flush with plenty of water; for eyes, get medical attention. Harmful if swallowed. Treated water may be harmful to fish and other aquatic life.

NOTICE OF WARRANTY

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
