The labels referred to above, submitted in connection with registration under FIFRA are acceptable, provided that you:

- 1. Submit five (5) copies of your final printed labeling before you release the products for shipment.

Stamped copies of the labeling are enclosed for your records.

At the next printing of the label make the following label changes:

- a. Delete the "Environmental Hazards" paragraph and replace with the currently recommended Environmental Hazards paragraph below.

This product is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
