STORE IN COOL DRY AREA BELOW 80°F.

DIRECTIONS FOR USE Remove white cap seal and grey plastic plug. Place suction inlet end of great pump through beaded cap directly into pail.

This material must be mixed in equal proportion with water *at the site* of the leak to be sealed. The resulting foamed product is designed to inhibit recontamination by the contained diethylene glycol.

For further instructions on the use of this product see the product's specifications.

Store container in a cool, dry area. Moisture will affect performance of all sized containers.

Storage at 30°F will considerably extend the useful life of the product if stored at 50°F or below.

Do not use near fire or flame. Use only in well-ventilated areas. Avoid breathing vapors and contact with eyes, skin and clothing. In case of eye or skin contact, flush immediately with plenty of water. For eyes, obtain medical attention. Wash contaminated clothing before re using. Do not store with feed, seed, or food products. Do not reuse empty container. Destroy by burying in a safe place.

IMPORTANT NOTICE TO PURCHASER:

Our recommendations for use of this product are based upon tests believed to be reliable. Since field conditions vary widely, the user must determine the suitability of the product for his particular application. Neither manufacturer nor seller makes any representation or warranty express or implied with respect to the use of this product other than the statements in this label.
