

CAUTION:

Precautionary Statements:
Humans and Domestic Animals: Avoid contact with eyes. In case of contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists. Avoid breathing spray mist. Keep container closed when not in use. **Cover or remove fish bowls and aquaria.** Food and food utensils should be removed or rinsed during treatment or thoroughly cleaned before using.

Storage and Disposal:
Do not contaminate water, food, or feed by storage or disposal. Do not reuse container. Rinse thoroughly before discarding in trash. Securely wrap original container in several layers of newspaper and discard in trash.

Do not store below 32°F. If exposed to temperatures below 32°F, allow completely and mix well before using.

Notice - Limited Warranty: 3M guarantees only that the product, if used as directed, will perform as described on this label. 3M makes no other guarantees, warranties or promises for the product. 3M will replace any defective product.

This replacement warranty is the buyer's only remedy against 3M for a defective product and replaces a recall or claim against 3M for damage or loss of any type.

Some states do not allow the exclusion of the limitation of incidental or consequential damages. If the above limitation of exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Application Information:

Directions for Use

General Classification:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Cuidado:

Es una violación de la ley Federal usar este producto en una manera inconsistente con la etiqueta.

1. For best results, bathe and shampoo the pet with an insecticidal shampoo recommended by your veterinarian.
2. Rub off excess water with a towel. Your pet does not have to be thoroughly dried.

3. Adjust sprayer on bottle of SECTROL Two-Way Pet Spray to deliver a coarse spray. Hold sprayer within a few inches of the haircoat.

Start by spraying your pet's head (avoiding contact with the eyes) and work your way back to the hind quarter. Spray under the haircoat by backcombing against the direction of hair growth with your other hand. **It is important to spray SECTROL Two-Way Pet Spray until the haircoat and any exposed skin is thoroughly wet to assure adequate coverage.**

4. Before to apply SECTROL Two-Way Pet Spray between the toes and foot pads and any other areas where fleas may hide. Avoid contact with the mucous membrane.

5. Allow your pet to dry. **Do not towel dry as this will remove many of the SECTROL Two-Way Pet Spray microcapsules.** As a dryer works, it will dry the drying time.

The microcapsules in SECTROL Two-Way Pet Spray adhere to the hair and gradually release their active ingredients, thereby making it last for up to eight days residual activity.

6. SECTROL Two-Way Pet Spray is not a cholinesterase inhibitor and may be used on puppies and kittens. For best results, reapply weekly.

7. Avoid bathing your pet directly with hot water or using a hot tub or hot bath immediately after use. Avoid use of hot tubs or hot baths for 24 hours after use of SECTROL Two-Way Pet Spray. Do not use hot tubs or hot baths for 24 hours after use of SECTROL Two-Way Pet Spray.

8. The active ingredients in SECTROL Two-Way Pet Spray are not known to be harmful to the environment.
