NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 10350-12" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Precautionary Statements

Hazards To Humans and Domestic Animals:

CAUTION: May be harmful if swallowed. Avoid breathing spray mist. Avoid contact with eyes, skin or clothing. Wash thoroughly after handling. Avoid contamination of feed and food utensils. Do not spray directly on humans or pets.

Statement of Practical Treatment -

If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching finger to back of throat. Never give anything by mouth to an unconscious person. If on skin: remove contaminated clothing and wash skin with soap and water. If in eyes: flush eyes with plenty of water. If irritation persists, call physician.

Note To Physician: Chlorpyrifos is a cholinesterase inhibitor, treat symptomatically. Atropine only by injections is an antidote.

Environmental Hazards: This product is toxic to fish, wildlife, and birds. Do not apply directly to water. Do not contaminate lakes or streams by cleaning of equipment or disposal of wastes.

Storage and Disposal: Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in original container out of the reach of children. Do not freeze or store above 120°F.

Unused pesticide Disposal: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

Empty Container Disposal: Do not reuse container. Triple rinse. Then wrap original container in several layers of newspaper and discard in trash or dispose of in sanitary landfill.

LEFT PANEL

Duratrol™ Yard and Kennel Concentrate Flea Spray is a concentrate formulation containing microencapsulated Dursban® for residual control of fleas and ticks in lawn and kennel areas including concrete surfaces. Duratrol™ Yard and Kennel Spray can be conveniently applied with most garden hose sprayers or pump-up type tank sprayers. The microcapsules provide a "timed release" mechanism for the active ingredient chlorpyrifos to provide long-lasting control of pests.

Directions For Use - It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING!

In Yards--Use 2 fl. oz. (4 tbsp.) of concentrate in 1 gallon of water for every 160 sq. ft. of area to be treated. This bottle (30 fl. oz.) treats up to 2400 sq. ft., diluted in 15 gals. water. A garden hose spray attachment (Such as the Ortho 1 qt. Lawn Sprayer) makes application easy because no pre-mixing is necessary--the sprayer automatically siphons and dilutes the concentrate with the water from the garden hose. Use a coarse, low-pressure spray in a smooth back-and-forth motion to uniformly apply product. Repeat treatment as necessary to maintain effectiveness.

For Kennels and Dog Houses--Mix 20 fl. oz. of concentrate and water to make 1 gal. of spray. Apply to buildings, resting areas, and floors. Do not apply directly to pets.

Notice - Limited Warranty 3M guarantees only that the product, if used as directed, will perform as described on this label. 3M makes no other guarantees, warranties or promises for the product. 3M will replace any product found by 3M to be defective.

The foregoing warranty is in lieu of all other warranties expressed or implied including the warranty of merchantability or fitness for a particular purpose. 3M shall not be liable for any damages, including incidental and/or consequential damages, regardless of the legal theory asserted, including negligence and/or strict liability arising out of the use of or the inability to use or the performance of the product.

Some states do not allow the exclusion or the limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
