precautionary statements.
KEEP OUT OF REACH OF CHILDREN

SHAKE WELL BEFORE USING!

Duratrol™ Yard and Kennel Flea Spray is a concentrate formulation containing microencapsulated Dursban^R insecticide for residual control of fleas and ticks in lawn and kennel areas including concrete surfaces. The microcapsules provide a "timed-release" mechanism for up to 4-weeks control of fleas on turf, even when it rains. Also kills many other yard and kennel insects (see Directions for Use). For a total flea control program, ask your veterinarian about Duratrol™ Household Flea Spray and Sectrol^R Two-Way Pet Spray and Foam.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE and frequently during use!

In Yards -- To control fleas, ticks, and other insects such as ants, chiggers, cockroaches, crickets, cutworms, grasshoppers, mosquitos, sow bugs, and spiders: Use 2 fl. oz. (4 tbsp.) of concentrate in 1 gallon of water for every 160 sq. ft. of area to be treated. This bottle (30 fl. oz.), diluted in 15 gals. of water, treats up to 2400 sq. ft. Use a garden hose sprayer adjusted to a coarse, low-pressure spray. Apply uniformly, using a smooth back-and-forth motion. Spray directly on insects where possible. Repeat treatment as necessary to maintain effectiveness.

For Kennels and Dog Houses -- Mix 20 fl. oz. of concentrate and water to make 1 gal. of spray. Apply evenly, but not to runoff, to buildings, resting areas, and floors. Replace pet bedding. Do not apply directly to pets.

To Help Control Fire Ants -- Mix 8 fl. oz. of concentrate and water to make 1 gal. in a sprinkler can. Stir occasionally during use to keep product mixed properly. Thoroughly wet mound and surrounding area to a 4 ft. diameter. Apply during cool weather, 65° - 80° F., or in early morning or late evening. Apply to new mounds as they appear and do not disturb mounds prior to treatment. If possible, treat all mounds in the vicinity and treat all colonies which may not as yet have constructed a mound.

Notice-Limited Warranty 3M guarantees only that the product, if used as directed, will perform as described on this label. 3M makes no other guarantees, warranties or promises for the product. 3M will replace any product found by 3M to be defective.

The foregoing warranty is in lieu of all other warranties expressed or implied including the warranty of merchantability or fitness for a particular purpose. Except for personal injury, 3M shall not be liable for any damages, including incidental and/or consequential damages, regardless of the legal theory asserted, including negligence and/or strict liability arising out of the use of or the inability to use or the performance of the product.

Some states do not allow the exclusion or the limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

SHAKE WELL BEFORE USING!

Precautionary Statements:

Hazards to Humans and Domestic Animals:

CAUTION: May be harmful if swallowed. Avoid breathing spray mist. Avoid contact with eyes, skin or clothing. Wash thoroughly after handling. Avoid contamination of feed and food utensils. DO NOT SPRAY DIRECTLY ON HUMANS OR PETS. NOTE: Kittens and puppies less than 12 weeks old may be sensitive to insecticide. Avoid treating bedding or other key rest areas where they may have prolonged direct contact with product. Keep children and pets out of treated areas until spray has dried.

Statement of Practical Treatment-

If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching finger to back of throat. Never give anything by mouth to an unconscious person. If on skin: remove contaminated clothing and wash skin with soap and water. If in eyes: flush eyes with plenty of water. If irritation persists, call physician.

Note To Physician: Chlorpyrifos is a cholinesterase inhibitor, treat symptomatically. Atropine only by injection is an antidote.

Environmental Hazards: This product is toxic to fish, wildlife, and birds. Do not apply directly to water. Do not contaminate lakes or streams by cleaning of equipment or disposal of wastes. Do not use on azaleas, camelias, poinsettias, roses, and variegated ivy because of possible injury to these plants.

Storage and Disposal: Do not contaminate water, food, or feed by storage or disposal.

Storage: Store in original container out of the reach of children. Do not freeze or store above 120°F.

Unused Pesticide Disposal: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

Empty Container Disposal: Do not reuse container. Triple rinse. Then wrap original container in several layers of newspaper and discard in trash or dispose of in sanitary landfill.
