### SHAKE WELL BEFORE USING!

Duratrol<sup>TM</sup> Yard Spray Concentrate is a concentrate formulation containing microencapsulated Dursban<sup>R</sup> insecticide for residual control of fleas and ticks in lawn and kennel areas including concrete surfaces. The microcapsules provide a "timed-release" mechanism for up to 4-weeks control of fleas on turf, even when it rains. Also kills many other yard and kennel insects (see Directions for Use). Use a product registered by EPA for use on pets to control the source of your flea infestation. For a total flea control program, ask your veterinarian about Duratrol<sup>TM</sup> Household Flea Spray and Sectrol<sup>R</sup> Pet Spray and Foam.

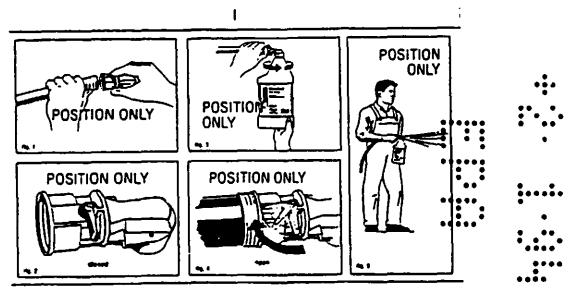

#### **DIRECTIONS FOR USE:**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

### SHAKE WELL BEFORE USE AND FREQUENTLY DURING USE!

### How to use the Duratrol hose end sprayer with this product:

Screw the Hose End Sprayer snugly onto your hose (fig. 1) Make sure the flow switch is in the closed position (fig. 2) Connect the hose to a faucet and turn the water pressure on. Invert the bottle and shake for 20 seconds. Thorough mixing is essential to ensure proper performance. Remove the cap from the bottle. Save the cap. Screw the bottle snugly into the sprayer (fig. 3). Point sprayer away from you. Move the flow switch to the open position to begin spraying (fig. 4). Hold the sprayer at waist level (fig. 5) and slowly sweep the area to be treated. Move at a steady pace. With average water pressure, the bottle should be empty in about 5 minutes. You can stop spraying at any time by returning the flow switch to the closed position. Unscrew the bottle from the sprayer and replace cap on bottle. Unscrew sprayer and rinse before storing. Follow directions on this label for disposal of unused insecticide. Shake the bottle well before restarting application. Follow label directions for disposal of empty container. Please note label precautions.

### In Yards:

To control fleas, ticks, and other insects such as ants, chiggers, cockroaches, crickets, cutworms, grasshoppers, mosquitoes, sow bugs, and spiders: Use 2 fl. oz. (4 Tbsp.) of concentrate in 1 gallon of water for every 160 sq. ft. of area to be treated. This bottle (30 fl. oz.), diluted in 15 gals of water, treats up to 2400 sq. ft. Use a garden hose sprayer adjusted to a coarse, low-pressure spray. Apply uniformly, using a smooth back-and-forth motion. Spray directly on insects where possible. Repeat treatment as necessary to maintain effectiveness.

## For Kennels and Dog Houses:

Mix 20 fl. oz. of concentrate and water to make I gal. of spray. Apply evenly, but not to runoff, to buildings, resting areas, and floors. Replace pet bedding. Do not apply directly to pets.

### To Control Fire Ants:

Mix 8 fl. oz. of concentrate and water to make 1 gal. in a sprinkler can. Stir occasionally during use to keep product mixed properly. Thoroughly wet mound and surrounding area to a 4 ft. diameter. Apply during cool weather, 65° - 80° F, or in early morning or late evening. Apply to new mounds as they appear and do not disturb mounds prior to treatment. If possible, treat all mounds in the vicinity and treat all colonies which may not as yet have constructed a mound.

### NOTICE -LIMITED WARRANTY:
