US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (FS 767) WASHINGTON, DC 20460	EPA REGISTRATION NO.	DATE OF ISSUANCE SEP 28 1989
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE REGISTRATION REREГИSTRATION <i>Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.</i>	NAME OF PESTICIDE PRODUCT ALL PURPOSE WEEDER FOR HOME USE AC 1490	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

NOTE: Changes in labeling, formula, or name in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. The label for this product, as currently labeled, contains the following statements:

2. The label for this product, as currently labeled, contains the following statements:

For the phrase "Natural" and the following:

"Natural" does not refer to the source of the product.

"Natural" does not refer to the ingredients of the product.

"Natural" does not refer to the mode of action of the product.

We have noted that the label for the above product, as currently labeled, contains the following statements: Registration No. 499-231, that you referred to in your letter to the Agency dated June 15, 1989, contains these statements; however, they are not acceptable.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL <i>See p. 2</i>	DATE 9/28/89
--	------------------------

3. Update your Commercial Statement of Formula (CSF) with regards to the Pyrethrins component of the formulation. The product was listed, however, the actual amount of active with limits (columns 14.a. and 14.b.) must be reported on the CSF. If you have questions regarding this, refer to Whitire 2247, Case File No. 1482-188 Registration No. 455-151 as a correct example.

4. Submit five (5) copies of your final printed labeling before you submit your final registration report.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release of shipment of the product constitutes acceptance of these conditions.

A stamped copy of the draft labeling is enclosed for your records.

CAUTION

Precautionary Statements:

Hazards to Humans and Domestic

Animals: Avoid contact with eyes. Some animals, particularly cats and kittens, may be sensitive to insecticides. See "Directions for Use" for specific application information. If adverse reactions are observed (e.g., heavy salivation, lethargy, breathing difficulties, or other unusual reactions), bathe pet immediately in warm, soapy water. If symptoms persists, seek medical attention.

Physical or Chemical Hazards: Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flame. Do not store below 32° F. Exposure to temperatures above 130° F may cause bursting.

Environmental Hazards: This product is toxic to fish. Do not contaminate water, food or feed by storage or disposal.

Statement of Practical Treatment: If in eyes: Immediately flush eyes with plenty of water. Get medical attention if irritation persists.

Storage and Disposal:

Storage: Store in a cool area away from heat or open flame and in an area out of reach of children. Do not store below 32° F.

Disposal: Do not reuse empty container. Replace cap and securely wrap original container in several layer sof newspaper and discard in trash. Do not puncture or incinerate.

Notice-Limited Warranty

3M guarantees only that the product, if used as directed, will perform as described on this label. 3M makes no other guarantees, warranties, or promises for the product.

3M will replace any defective product. This replacement warranty is the buyer's only remedy against 3M for a defective product and replaces any other claim against 3M for damage or loss of any type.

Some state do not allow the exclusion or the limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

For any warranty questions, contact Animal Care Products/3M.

Shake Well Before Using

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Start by applying a one-second burst of SECTROL Two-Way Flea Foam directly on haircoat near the pet's head, avoiding contact with the eyes. (Note: SECTROL Two-Way Flea Foam is an excellent product to use on nervous or hyperactive pets because it can be applied first into your palm while you face away from the animal.) Massage the foam into the haircoat until it disappears.
2. Repeat this procedure making sure to thoroughly moisten, but not soak, the entire haircoat. When applying to cats, use a one-second burst for each pound your cat weighs. Usually 4-5 one-second bursts will cover a 5-7 pound cat. The amount required will vary with the size of the pet and density of the haircoat.
3. It is important to apply SECTROL Two-Way Flea Foam as evenly as possible over your pet's body because fleas will migrate to untreated areas (e. g. toes, footpads, around the ears, etc.).
4. Applying this product at the level described above will provide rapid flea kill and at least 8 days residual activity. Because some animals, particularly cats and kittens, may be sensitive to insecticides, do not exceed the recommended application rate on cats and kittens unless so advised by your veterinarian.
5. Allow your pet to dry. Do not towel dry as this will remove many of the SECTROL Two-Way Flea Foam microcapsules. (These microcapsules provide the insecticide's time-release residual activity.) A blow dryer works well to shorten the drying time.
6. For best results, reapply SECTROL Two-Way-Flea Foam weekly.

In addition to treating your pet directly, control of fleas in your pet's environment is important if you wish to eliminate fleas from your home. Ask your veterinarian about SECTROL Premise Spray (No. 1494) to help eliminate fleas from the carpeting, furniture and other pet activity areas. When used as directed, SECTROL Premise Flea Spray provides 30-day residual control of fleas in the home.
