CAUTION

Precautionary Statements

Hazards to Humans and Domestic Animals: Avoid contact with eyes. Some animals, particularly cats and kittens, may be sensitive to insecticides. See "Directions for Use" for specific application information. If adverse reactions are observed (e.g., heavy salivation, lethargy, breathing difficulties, or other unusual reactions), bathe pet immediately in warm, soapy water. If symptoms persist, seek medical attention.

Physical or Chemical Hazards: Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flame. Do not store below 32°F. Exposure to temperature above 130°F. may cause bursting.

Environmental Hazards: This product is toxic to fish. Do not contaminate water, food or feed by storage or disposal.

Statement of Practical Treatment: If in eyes: Immediately flush eyes with plenty of water. Get medical attention if irritation persists.

Storage and Disposal

Storage: Store in a cool area away from heat or open flame and in an area out of reach of children. Do not store below 32°F.

Disposal: Do not reuse empty container. Replace cap and securely wrap original container in several layers of newspaper and discard in trash. Do not puncture or incinerate.

Limited Warranty

3M guarantees only that the product, if used as directed, will perform as described on this label. 3M makes no other guarantees, warranties or promises for the product. 3M will replace any product found by 3M to be defective. The foregoing warranty is in lieu of all other warranties expressed or implied including the warranty of merchantability or fitness for a particular purpose. 3M shall not be liable for any damages, including incidental and/or consequential damages, regardless of the legal theory asserted, including negligence and/or strict liability arising out of the use of or the inability to use or the performance of the product.

Some states do not allow the exclusion or the limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. For any warranty questions, contact 3M Animal Care Products. Dicarboximide 0.34%

Inert Ingredients: 98.81%

*Equivalent to 0.56% Butylcarbityl (8-Propylpiperonyl) Ether and to 0.14% related compounds.

CAUTION

KEEP OUT OF REACH OF CHILDREN

See side panel for additional precautionary statements

10 oz. (283 g)
Available through Veterinarians

3M Sectrol™ Flea Foam is a Two-Way formulation which provides both quick kill and residual control of fleas and ticks on dogs and cats.

3M Catalog No. 1498

Directions for Use- It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING!

1. Start by applying a one-second burst of Sectrol Flea Foam directly on haircoat near the pet's head, avoiding contact with the eyes. (Note: Sectrol Flea Foam is an excellent product to use on nervous or hyperactive pets because it can be applied first into your palm while you face away from the animal.) Massage the foam into the haircoat until it disappears.
2. Repeat this procedure, making sure to thoroughly moisten, but not soak, the entire haircoat. When applying to cats, use a one-second burst for each pound year cat weight. Usually 4-5 one-second bursts will cover a 5-7 pound cat. The amount required will vary with the size of the pet and the density of the haircoat.
3. It is important to apply Sectrol Flea Foam as evenly as possible over your pet's body because fleas will migrate to untreated areas (e.g., toes, footpads, around the ears, etc.).
4. Applying this product at the level described above will provide rapid flea kill and at least 8 days residual activity. Because some animals, particularly cats and kittens, may be sensitive to insecticides, do not exceed the recommended application rate on cats and kittens unless so advised by your veterinarian.
5. Allow your pet to dry. Do not rub dry as this will remove many of the Sectrol Flea Foam microcapsules. (These microcapsules provide the insecticide's timed-released residual activity.) A blow dryer works well to shorten the drying time.
6. For best results, reapply Sectrol Flea Foam weekly.
