SHAKE WELL BEFORE USING!

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. **SECTROL PET AND PREMISE FLEA SPRAY** may be applied as a **GENERAL SURFACE SPRAY**.

Before use, shake thoroughly and adjust sprayer to deliver a coarse spray.

On Household Surfaces - effective for up to 30 days.

1. Thoroughly vacuum all carpeting, upholstered furniture, along baseboards, under furniture and in closets. Seal vacuum bag and dispose. Mop hard floors. Clean or replace pet bedding.
2. Using a smooth back-and-forth motion, thoroughly spray all areas and surfaces mentioned in step 1, especially pet resting areas and other areas that pet frequents. Repeat application after 30 days or as needed.

Fifteen fluid ounces treats approximately 115 square feet. **SECTROL PET AND PREMISE FLEA SPRAY** should not damage surfaces that are unaffected by water.

On Dogs and Cats - effective for up to 8 days.

1. For best results, wash pet with an insectidal shampoo recommended by a veterinarian (appropriate pesticidal shampoo) prior to application of **SECTROL PET AND PREMISE FLEA SPRAY**. Rinse shampoo thoroughly from haircoat and towel to remove excess water.
2. Hold spray nozzle 4-6 inches from the pet. Apply **SECTROL PET AND PREMISE FLEA SPRAY** to the hair and skin by brushing back the haircoat while spraying. Moisten the skin but do not soak to dripping.
3. Avoiding the pet's eyes and nose, spray the pet evenly, over all areas of the body.
4. Allow the pet to air dry. Do not towel dry, as this can remove many **SECTROL PET AND PREMISE FLEA SPRAY** microcapsules. A blow dryer may be used.
5. Wash hands thoroughly with soap and water after application.
6. Applied as directed, **SECTROL PET AND PREMISE FLEA SPRAY** will provide flea kill for up to eight days. For best flea and tick control, reapply weekly.

To Treat Other Household Pests: (including ants, beetles, centipedes, cockroaches, crickets, firebrats, flies, gnats, moths, silverfish, spiders, waterbugs, and weevils) Direct this spray to areas where these pests are found. Spray directly on insects where possible. Repeat treatment as necessary.
