Kills Both Fleas and Ticks

Active Ingredient:

Chlorpyrifos: 0,0-diethyl-0-(3,5,6-
trichloro-2-pyridyl)phosphorothioate: 20.0%

Inert Ingredients: 80.0%

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

See back of card for additional
precautionary statements

Net Collar Wt.: 12 grams
available through veterinarians

3M

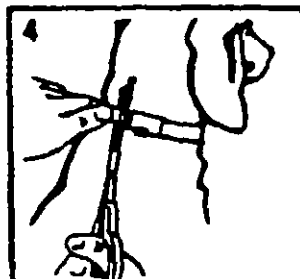

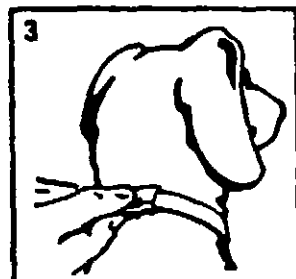

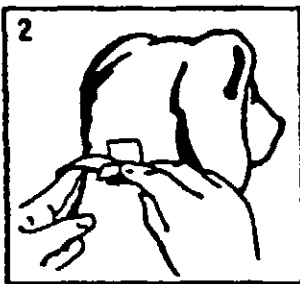

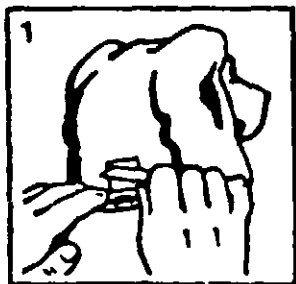

3M Catalog No. 1479

This collar works best as a supplement to a total flea control program. It provides long lasting protection to help prevent infestation or reinfestation of fleas and kills ticks that may carry and transmit disease. This collar also contains Bitrex[®], a bittering agent to discourage chewing.

This collar starts killing fleas and ticks as soon as it is placed around the dog's neck and will provide effective head to tail control of fleas within 1 day. New fleas and ticks which may temporarily appear on the dog will also be killed while the collar is worn. This collar has been shown to provide effective flea kill up to 8 months and tick kill up to 5 months. During the first few days of use, inspect the dog's neck daily for any signs of irritation. Replace collar as frequently as directed by your veterinarian.

Directions for Use—It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. Put the collar around the dog's neck so the ends overlap in the open clasp (see fig. 1).
2. Adjust the collar so it fits with room for two or three fingers between the collar and the dog's neck (see fig. 2).
3. Snap the clasp closed (see fig. 3). This collar may be removed by flexing open the thumb latch on the clasp. To reattach the collar, repeat steps 1-3.
4. Cut off excess length (see fig. 4).
5. Wash hands thoroughly after handling this collar.

Note: Occasional fraying of the collar edge may be observed during wear; this does not adversely affect collar performance.

CAUTION

Precautionary Statements

Hazards To Humans: Avoid contact with eyes. Do not allow children to play with this collar. Some people may be sensitive to insecticides.

Hazards To Humans and Domestic Animals: Do not apply to cats, to puppies less than 12 weeks of age or to bitches nursing puppies. Do not apply to sick or debilitated animals. Do not use this product simultaneously with other cholinesterase inhibiting drugs, pesticides, or chemicals. Some animals may be sensitive to insecticides. Remove collar at the first sign of skin irritation or adverse effects such as excess salivation, vomiting, or diarrhea.

Environmental Hazards

This product is toxic to fish, birds and other wildlife.

Statement of Practical Treatment

In case of contact with eyes, immediately flush with plenty of water. Get medical attention if persistent irritation results.

Notes to Physician or Veterinarian

Active ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine, by injection only, is preferable antidote. Oximes, such as 2-PAM/Protopam, may be therapeutic if used early; however, use only in conjunction with atropine.

Storage and Disposal

Pesticide Storage: Store product in original container out of the reach of children.

Pesticide and Empty Container Disposal: Securely wrap excess collar and original container in several layers of newspaper and discard in trash.

Limited Warranty

3M guarantees that the product, if used as directed, will perform as described on this label. 3M makes no other guarantees, warranties or promises, express or implied, for the product. The purchaser's sole and exclusive remedy shall be limited to product replacement or refund for the returned product at 3M's option. 3M will replace any product found by 3M to be defective. The foregoing warranty is in lieu of all other warranties, express or implied, including the warranty of merchantability or fitness for a particular purpose. 3M shall not be liable for any damages, including indirect, special, incidental and/or consequential damages, regardless of the legal theory asserted, including negligence and/or strict liability arising out of the use of or the inability to use or the performance of the product. Some states do not allow the exclusion or the limitation of incidental or consequential damages so the above limitation or exclusion may not apply to you. This warranty gives you specific rights, and you may also have other rights which vary from state to state. For any warranty questions, contact 3M Animal Care Products.
