Attention: John B. Dubeck

Subject: 3M LR-3500 Copper Granules
EPA Registration No. 10350-63
Amendment Dated July 15, 2013

The amendment, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable.

Proposed Amendment

- Minor Labeling Changes

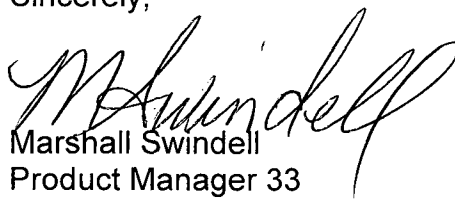

General Comments

A stamped copy of the labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130©, you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

3M LR-3500 Copper Granules

Built-in control of algae to maintain the beauty of roofing materials

ACTIVE INGREDIENT

Cuprous oxide.....	3.28%
OTHER INGREDIENTS.....	96.72%
Total.....	100.00%

(Equivalent to 65.6 lbs of cuprous oxide/ton of granules)

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage:

Store under ambient conditions.

Pesticide Disposal:

To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to an approved waste disposal facility. Since regulations vary, consult applicable regulations or authorities before disposal.

Pesticide Container Disposal:

Where appropriate, return empty 2000 lb bulk bags to 3M for reuse.

Refillable Container. Refill this container with 3M Copper Granules only. Do not reuse this container for any other purpose. Bags should be emptied of any residual granules prior to refilling. When bag condition warrants disposal, dispose of bag in a sanitary landfill or offer for recycling if available or reconditioning if appropriate.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

If granules are to be stored prior to (and during) use, a copy of this label must be made readily accessible to employees when they are in their work area(s).

3M LR-3500 Copper Granules contain copper oxide, an effective algaecide for inhibiting the growth of blue-green algae that can stain roofing materials. The granules are treated roofing granules 1-2 mm in diameter made from rock coated with copper oxide and sealed in a ceramic shell. The ceramic shell allows a timed release of copper to provide long-lasting algae control that extends the useful life of roofing materials. The granules are colored to match the roofing materials.

3M LR-3500 Copper Granules should be mixed with standard roofing granules at the rate of 5-20% by weight and processed normally during manufacture of the roofing materials.

4/4

WARRANTY

3M warrants that the *3M LR-3500 Copper Granules* conform to the ingredient statement above.
