

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

# DANGER

## KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes burns. Causes eye damage and skin irritation. Avoid breathing vapor. Do not get in eyes or on skin or on clothing. May be absorbed through skin. Wear goggles or face shield and rubber gloves when handling. May be harmful or fatal if swallowed. Avoid contamination of food.

### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact your Regional Office of the EPA. Do not contaminate water by cleaning of equipment, or disposal of wastes.

### PHYSICAL PROPERTIES

Specific Gravity at 20/20 C	1.124	Solubility in Water at 20 C	Complete
Vapor Pressure at 20 C	17 mm Hg	Solubility of Water in at 20 C	Complete
Freezing Point	-14 C	pH at 25 C	3.7 to 4.5

### STORAGE AND HANDLING

UCARCIIDE 150 solutions are corrosive to many commonly used materials of construction, such as steel, galvanized iron, aluminum, tin, and zinc. These solutions can be stored and handled in baked-phenolic lined steel, stainless steel, or reinforced epoxy plastic equipment. This product freezes at about -14 C. Therefore, unless the storage tank is inside or underground, heating and insulation may be required. If heating is needed, exposure to high temperatures should be avoided. For short storage times (up to about a month), temperatures up to 100 F can be tolerated, but the preferred maximum storage temperature is about 80 F.

A stainless steel centrifugal pump is suggested for transfer service. Avoid use in salt water tanks, salt water tanks, and parking

### STORAGE AND DISPOSAL

- 1 PROHIBITIONS Do not contaminate water, food, or feed by storage or disposal. Do not pollute surface water or ground water.
- 2 PESTICIDE DISPOSAL Pesticide spray residue, containers, and other materials resulting from use of this product must be disposed of in landfills approved for pesticides, or treated in a manner allowed by state and local regulations.
- 3 CONTAINER DISPOSAL Do not reuse containers and do not mix with other wastes. Do not burn empty containers.
- 4 GENERAL Contaminated clothing should be washed before reuse.

In case of contact with eyes, flush eyes immediately with water for at least 15 minutes. If eye irritation persists, seek medical advice. If swallowed, drink plenty of water. Avoid alcohol. Call a physician. NOTE TO PHYSICIAN: Product is highly corrosive. Avoid contact with skin and mucous membranes. See Side Panel for Additional Information.

# Ucarcide 150

A MICROBIOCIDE FOR USE IN CONTROLLING SULFATE-REDUCING BACTERIA  
IN OIL WELL DRILLING AND OIL FIELD PROCESSING APPLICATIONS.

Active Ingredients: Glutaraldehyde  
Inert Ingredients:

50%  
50%  
Water

KEEP OUT OF REACH OF CHILDREN.

## DANGER

### STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

swallowed, drink promptly a large quantity of milk, egg whites, gelatin or lotion or if these are not available, drink large quantities of water and alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

See Side Panel for Additional Precautionary Statements.

## UNION CARBIDE CORPORATION • SPECIALTY CHEMICALS AND PLASTICS

## DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### DRILLING MUDS

- 1 Calculate the total volume of the drilling mud system and divide by the volume of the UCARCIIDE 150 needed to produce a concentration of approximately 150 ppm UCARCIIDE 150. For example 42.5 gallons of UCARCIIDE 150 per each 1000 barrels of total volume will produce this dilution.
- 2 While the system is circulating add the UCARCIIDE 150 as a slug.
- 3 As the well depth increases increasing the total volume of the system add additional UCARCIIDE 150 to maintain the proper concentration.

### WORKOVER FLUIDS

- 1 Calculate the total volume of the workover fluid system and using this volume calculate the number of gallons of UCARCIIDE 150 needed to produce a concentration of approximately 2000 ppm UCARCIIDE 150. For example 42.5 gallons of UCARCIIDE 150 per each 1000 barrels of total volume will produce this dilution.
- 2 Add UCARCIIDE 150 into the system
- 3 Circulate the workover fluid system until the fluid returns clear
- 4 Shut the system down and idle for several hours
- 5 Remove the workover fluid. The well should be ready for productive use

### OIL WELL WATER FLOODS

- 1 Calculate the total volume of the water flood system and using this volume calculate the number of gallons of UCARCIIDE 150 needed to produce a concentration of approximately 150 ppm UCARCIIDE 150. For example 3.2 gallons of UCARCIIDE 150 per each 1000 barrels of total volume will produce this dilution.
- 2 Add UCARCIIDE 150 as a slug, or intermittently
- 3 Fifty ppm UCARCIIDE 150 added each week is recommended to maintain bacterial control. This may be accomplished by adding 1 gallon of UCARCIIDE 150 to each 1000 barrels of total volume.

### WARRANTY:

- 1 The manufacturer guarantees and warrants (a) that the active ingredient content and the total net weight are as stated within lawful limits and (b) that the directions, warnings, and other statements on this label are based upon responsible experts' evaluation of reasonable tests of effectiveness and of toxicity to laboratory animals.
- 2 The manufacturer further warrants that the material herein is reasonably fit for use under normal conditions as directed herein. The manufacturer DOES NOT MAKE AND DOES NOT AUTHORIZE ANY AGENT OR REPRESENTATIVE TO MAKE ANY OTHER WARRANTIES OF FITNESS OR OF MERCHANTABILITY, GUARANTEE, OR REPRESENTATION, EXPRESS OR IMPLIED, CONCERNING THIS MATERIAL. This product is sold only on the basis that the buyer assumes all risk of use, handling, or storage which creation of damage and which goes beyond manufacturer's control. No claim of any kind, and whether it is not based on negligence, by the buyer can be greater than the purchase price of the material in respect of which suit is brought, except that the manufacturer shall be liable for special damages for consequential damages resulting from the use, handling, or storage of this material.
- 3 No modification of the warranty and disclaimer is authorized except by written consent of the following authorized employees of the manufacturer:
