BERNZOMATIC

SUPER Jet Fog

Kills: Mosquitos, Flies, Wasps, Bees, Gnats & flying Moths

DIRECTIONS FOR USE

GENERAL INFORMATION

BernzOmatic Super Jet Fog is designed primarily to control small flying insects. It is a ready-to-use insecticide which contains DDVP and PRYETHRIN insecticides. It will perform effectively in all BernzOmatic Foggers and other insect foggers in outdoor areas; around animal buildings, barns, dog kennels, recreation areas, etc.

DIRECTIONS FOR USE

Fog around home, farm, camp area, motels, resorts, roadside stands, patios, lawns or any outdoor area where insects are a problem.

Dispense in a dry fog for maximum effectiveness. In general one fluid ounce will cover 1000 square feet. Approximately 10 ounces will treat the average home yard.

In applying fog, pay special attention to insect nesting and breeding areas, i.e. shrubs, bushes or heavily foliated areas. Keep unit at least 10 feet from tender plants and shrubbery and let the fog drift in the desired direction. Always keep wind at your back when fogging and **DO NOT FOG IN AREAS USED TO GROW FOOD OR FEED CROPS.**

Avoid contamination of food and animal feed with this fog. Cover or remove food, food processing or serving surfaces and utensils before fogging. Do not use in milk rooms or poultry houses.

NOTE: This product is not designed to be used directly on food crops or ornamentals; it may burn plants if applied too heavily.

Repeat fogging as necessary.

Refer to manufacturer's instructions for proper mechanical operation of fogger.

This is a **combustible mixture** and should not be used near an open flame. Keep container tightly closed when not in use.

This product is toxic to fish and wildlife. Keep out of any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.
