ACCEPTED
FEB 6 1969
U.S. DEPARTMENT OF AGRICULTURE
OFFICE OF THE ASSISTANT SECRETARY FOR PEST CONTROL
WASHINGTON, D.C. 20250
10-366-1

Formulated and Recommended for use in: Dairy Farms, Food Stores, Food Plants, Hospitals, Motels, Bottling Plants, and Restaurants.

SHAKE BEFORE USING---Keep Upright While Using.

Directions: Hold container upright. Direct spray to object or surface being sprayed. Point away from face.

TO KILL MOSQUITOES, FLIES, GNATS, FLYING MOTHS, WASPS: Discharge spray mist upward into center of room. Spray in corners, behind furniture. Keep room closed for 10 minutes. Spray wasp nests directly. Repeat as needed.

TO KILL ROACHES, WATERBUGS, CRICKETS, SILVERFISH, SPIDERS: Apply liberal wet coating to all infested areas to drive insects out for direct contact. Spray heavily into all cracks, crevices, door and window trim, under sinks, behind refrigerators, around drains, and in warm, moist, or dark places. Repeat as needed.

TO KILL ANTS: Treat as above. Also spray along ant trail into center of ant hill. Repeat as needed.

TO KILL FLEAS ON DOGS: Spray lightly onto tips of animal's hair. Do not rub into skin. Spray kennel and bedding. Keep nozzle at least 12" away from animal.

FOR PICNICS, CAMPING, FISHING: Spray tents, chairs, tables, and nearby area to kill and temporarily repel certain flying and crawling insects. Repeat as needed. See caution below.

CAUTION: Keep from reach of children. PERMACHLOR may be used around food products if they are covered to protect against direct contact when spraying. Use as a space spray in Food Processing Plants only when plant is not in operation. Clean surfaces before using. Do not set container on stove or radiator, nor store where temperature exceeds 120°F. Do not puncture or incinerate. Cover fish bowls, and remove birds for one hour in spraying rooms. Do not spray directly on plants, shrubbery. Avoid freezing. Do not spray heavily on plastics, or asphalt tile.

ACTIVE INGREDIENTS: 20%---Refined Petroleum Oil 17.50%
