DIRECTIONS FOR USE

ULV Application: For thermal fogging operation, use the ULV Mist Unit in Mist Gun. Apply at the rate of 0.5 fl. oz. of concentrate per 1,000 cubic feet of space. Direct output from generator upwards toward upper corners of room and ceiling. This ULV diluted spray may be applied in facilities housing under-100 lb. poultry, meat, rabbit and egg production inspection program.

Extinguish flames in the area to be treated. Shut off all fire and smoking or venting equipment.

Ventilate room before application. Leave room for one hour after spraying. Ventilate room thoroughly before reentry.

Space Spray: To kill adult and accessible stages of insect pests of stored foods: Grain Weevils, Flour Beetles, Saw-toothed Grain Beetles, Angoumois Grain Moths, Mediterranean Flour Moths, Indian Meal Moths, Grain Mites, Carpet Beetles and Spider Beetles. Direct output into corners, under pallets, hitting as many of the insects as possible and then treat as a space spray upward toward upper corners of room and ceiling.

To kill houseflies, mosquitoes and gnats, treat as a space spray directing output toward upper corners of room and ceiling.

Contact Spray: Use undiluted to kill roaches, silverfish, earwigs, ants, spiders, ticks, centipedes, sowbugs, millipedes, carpet beetles. Apply the spray as a contact spray in cracks and crevices in woodwork, walls, floors, beneath sinks and other insect harborage contacting as many insects as possible.

To kill wasps and hornets, contact application should be made in late evening when insects are at rest. Spray liberally into flying and nesting places, contacting as many insects as possible. Repeat as necessary.

For mechanical misting equipment such as the Mist Gun or Challenge Mist Gun.

Diluting Instructions: Dilute to 0.5% SBP-1382 by adding 1 fl. oz. of the 10% concentrate to 19 fl. oz. of petroleum distillate.

Dilute to 0.25% SBP-1382 by adding 1 fl. oz. of the 10% concentrate to 39 fl. oz. of petroleum distillate.

Dilute to 0.10% SBP-1382 by adding 1 fl. oz. of the 10% concentrate to 99 fl. oz. of petroleum distillate.

Dilute to 0.05% SBP-1382 by adding 1 fl. oz. of the 10% concentrate to 199 fl. oz. of petroleum distillate.

Dilute to 0.025% SBP-1382 by adding 1 fl. oz. of the 10% concentrate to 399 fl. oz. of petroleum distillate.

Dilute to 0.01% SBP-1382 by adding 1 fl. oz. of the 10% concentrate to 999 fl. oz. of petroleum distillate.

For most effective results against flying insects, operate spray at 10-15 psi. Adjusted to deliver a fine mist. For flying insects, use either 0.10% or 0.25% SBP-1382.

To kill houseflies, mosquitoes, gnats, wasps, hornets and other flying insects, close doors and windows. Point nozzle upward, direct the spray mist toward ceiling, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the door closed for at least 30 minutes. Ventilate the room before reentry. Repeat as necessary.

To kill crawling insects, adjust spray to produce a fine mist. Spray directly on insects with either 0.25% or 0.50% SBP-1382.

To kill roaches, earwigs, grain mites, sowbugs, spiders, silverfish, ticks, centipedes and grain insects (adult and accessible stages of confused flour beetles, red flour beetles, sawtoothed grain beetles, shiny spider beetles, carpet beetles, grain weevils, Angoumois grain moths, Indian meal moths). Spray thoroughly into hiding places such as cracks, crevices, under areas, openings around pipes and sinks, under refrigerator, beneath the storage areas and other insect harborage areas. Spray directly on insects where possible. Repeat as necessary.

To Kill Wasps and Hornets: Contact application should be made in late evening when insects are at rest. Spray liberally into flying and nesting places, contacting as many insects as possible. Repeat as necessary.

To Kill Ants: Apply to ant nests and points of entry. Spray with water before repeat as necessary.

THERMAL APPLICATIONS: INDOORS: Use 0.25% SBP-1382 for the home, schools, stores, restaurants, warehouses, restaurants and industrial institutions. Shut off all fire and smoking equipment. Ventilate room for one hour after spraying.

Extinguish flames and all lights. Allow room to fog for one hour. Then open doors and windows. Direct output from generator upwards toward upper corners of room and ceiling. Hit as many of the insects as possible. Then treat as a space spray upward toward upper corners of room and ceiling.

WARRANTY STATEMENT: The manufacturer warrants the use of this product in accordance with the directions on the label. The use of this product beyond the directions on the label is at the user's risk. The manufacturer does not warrant the results of the use of this product in any other manner. The user assumes all liability for the use of this product in any other manner.

COMMERCIAL SPRAY

(Contains 0.2 pounds of SBP-1382 per gallon)

FOR INDOOR USE IN ULV, MECHANICAL MISTING SPRAYERS, OR THERMAL FOGGERS

FOR HOMES, STORES, INSTITUTIONS, RESTAURANTS, FOOD PROCESSING PLANTS, WAREHOUSES, INDUSTRIAL INSTALLATIONS, AND HORSE STABLES

ACTIVE INGREDIENTS

*Resmethrin ([5-(phenylmethyl)-3-furanyl]methyl 2,2-dimethyl-

3-(2-methyl-1-propenyl)cyclopropanecarboxylate

Related compounds

Aromatic petroleum hydrocarbons

Petroleum distillate

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS CAUTION

Harmful if swallowed. Avoid breathing vapor. Avoid Contact with skin, eyes, or clothing. Wear protective clothing. Wash exposed skin with soap and water after handling and before eating. Wash all contaminated clothing with soap and water, separately from other clothing, before re-use.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting because of aspiration hazard. Call a physician.

IF IN EYES: Flush with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

IF ON SKIN: Wash off with soap and water.

PHYSICAL OR CHEMICAL HAZARDS

Extinguish open flame before space spraying. This formulation is combustible. DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **SEE SIDE PANEL FOR ADDITIONAL INSTRUCTIONS.**

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by methods of storage or disposal. Open burning, open dumping, including burial, are prohibited.

PESTICIDE DISPOSAL: Pesticide spray mixture, or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides, or buried in a safe place away from water supplies.

CONTAINER DISPOSAL: Properly identify all used containers. Triple rinse (or equivalent) and offer for recycling, reconditioning or disposal in approved landfill, or bury in a safe place. A container size of 30 gals. or more may be resealed and offered for reconditioning.

GENERAL: Consult Federal, State or Local disposal authorities for approved alternate procedures.

This concentrate is designed for use undiluted in ULV sprayers such as the Leco Mini ULV or Micro Gen, which give particles of aerosol size. It can also be diluted with oils which meet food additive regulation 172.884 for use in mechanical fogging equipment such as the Microsol or Challenger machines which give larger particles. It can also be diluted with oil as specified and applied as a contact spray.

In food handling areas, food should be removed or covered previous to treatment. All food processing surfaces should be covered or thoroughly cleaned before using. Apply only when facility is not in operation.

Before application, remove plants and animals from area to be treated. Remove horses before spraying stables. Use of this product in horse stables is restricted to stables housing horses that will not be used for food.
