Montvale, NJ 07645

Dear Ms. Lawes:

Subject: Petroleum Distillate Conversion
Ford's Household and Apartment Spray
EPA Registration Number 10370-26
Ford's Food Plant Fogging Insecticide
EPA Registration Number 10370-28
Submissions Dated December 20, 1993

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One (1) copy of each of the respective finished labeling must be submitted prior to releasing the products for shipment. A stamped copy of each of the product labels is enclosed for your records.

1. Add the following statement to the precautionary text: If swallowed, do not induce vomiting due to aspiration hazard. Contact a physician or Poison Control Center immediately.

2. Revise the respective **STORAGE AND DISPOSAL** sections in accordance with the current acceptable pesticide/rinseate/pesticide container disposal practices as outlined in 40 CFR Part 165 and other applicable documents published by the Agency. Be sure to include the statement "Do not contaminate water, food, or feed, by storage or disposal" within the **STORAGE AND DISPOSAL** text.

3. Regarding product 10370-28, revise the statement which begins "Concurrent treatment..." to read as follows:

Concurrent treatment of animals with a pesticide product registered and approved for use on animals is recommended.

4. Incorporate the statement put forth in 2 above into the label for product 10370-26 within the section which provides directions for use of this product in the treatment of *fleas and brown dog ticks*.

Sincerely,

for Joseph M. Brennis
Mr. Robert S. Brennis

PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors. Avoid contact with eyes, skin or clothing. In case of contact, immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists. Remove pets, birds, and cover fish aquaria before spraying.

The use of this product in food processing establishments should be confined to time periods when the plant is not in operation. Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using.

Environmental Hazards

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Prohibitions: Do not contaminate water, food, or feed by storage or disposal. Open dumping prohibited.

Pesticide Disposal: Pesticide, spray mixture, or rinsate that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Container Disposal: Do not reuse empty container. Destroy by perforating or crushing and burying in a safe place.

General: Consult Federal, State or Local disposal authorities for approved alternative procedures.

SURFACE SPRAYING: To control *Roaches, Ants, Silverfish, Spiders, Crickets, Clover Mites, Cheese Mites, Granary Weevils, Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, Saw-toothed Grain Beetles, Spider Beetles, Cigarette Beetles, Drugstore Beetles, Meal Worm, Grain Mites, and Caddisflies:* Use a good sprayer adjusted to deliver a coarse wet spray. Direct the spray into hiding places, cracks and crevices, under pallets, around containers of stored foods, around the base of machinery, behind shelves and drawers. For silverfish, spray bookcases. For ants, spray trails, nests and points of entry. If surface application only is to be used, spray floors, walls, and other surfaces, applying at a rate of 1 gallon to 750 square feet of surface.

TO CONTROL CARPET BEETLES: Spray edges of carpeting and under carpeting and rugs. Make a localized application to floor and baseboards. Spray directly into cracks, closets, and insected areas of shelving. Repeat treatment as necessary.

TO CONTROL BEDBUGS: Spray mattresses lightly, particularly around tufts and seams. Take beds apart and spray in all joints. Treat baseboards, moldings, and floors. Repeat treatment as needed.

BEST AVAILABLE COPY

TO CONTROL FLEAS AND BROWN DOG TICKS: Thoroughly spray infested areas, pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, moldings, window and door frames, and localized areas of floor and floor covering.

Fresh bedding should be placed in animal quarters following treatment. Concurrent treatment of animals with an approved insecticide is recommended. Repeat treatment as needed.

TO CONTROL CLOTHES MOTHS: Remove any infested articles from storage, brush thoroughly and air for several hours in sunlight, if possible. Apply spray liberally to empty chests, closets, bureaus, and other storages, directing the spray into cracks, joints, and crevices. After airing, infested articles may be treated lightly, keeping nozzle at least three feet from fabric to avoid staining. Store clothes in moth tight containers or repeat treatments monthly.
