EPA EST. NO

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Induce vomiting by drinking one or two glasses of water and touching back of throat with finger. Use syrup of Ipecac, if available. Do not induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: Remove contaminated clothes and wash skin with soap and water.

IF IN EYES: Flush with plenty of water. Get medical attention.

IF INHALED: Remove victim to fresh air and assist respiration if indicated. Consult a physician.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. If symptoms of cholinesterase inhibition appear, atropine only by injection is an antidote.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Avoid contact with eyes, skin or clothing. Wash hands after using. Do not contaminate food or feedstuffs with this spray. Do not allow spray to contact food, feedstuffs, or water supplies. Thoroughly wash food contact surfaces with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying. Do not use this product in edible products areas of food processing plants, restaurants or other areas where food is commercially processed or prepared. Do not use in serving areas while food is exposed.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and place in trash collection.

FOR USE IN NON-FOOD AREAS

Indoor and outside premises of hotels, motels, homes, preschools, apartments buildings, recreational buildings, boats, ship cabins and hospitals.

IN HOSPITALS: Remove patients prior to treatment. Ventilate rooms for two hours before returning patients.

This product can be used in NON-FOOD AREAS ONLY, such as corridors, offices, foyers, lavatories, garages, utility rooms, storage rooms and basements, of food packaging and processing plants, milk handling areas of milk plants, milk storage rooms, egg processing plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills and bakeries. Also for use in and around campers, mobile homes, buses and automobiles. This product can be used in trucks, boxcars and ship cargo holds only if the vehicles are not used for transport of feed or food products at any time. Also for use in dog kennels and horse stables. Do not spray on dogs or horses. Do not spray dog and horse food or feed items.

NOTE TO PEST CONTROL OPERATORS: One gallon of spray is sufficient to treat 1500 linear feet with a 6 inch spray. For contact and residual spray, use Ford's Aquakill Plus Roach & Ant Spray without diluting. For repeat applications, dilute with equal parts of water.

20/2

Contact spray - kills and reduces infestations: *Cockroaches, Crickets, Silverfish, Carpet Beetles, Clover Mites, Centipedes, Millipedes, Firebrats, Earwigs, Sowbugs, Ants, Spiders, Fleas*: Use as a spot treatment. When possible, spray directly on pests to reduce infestations. Apply as a coarse spray or with a paint brush into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators and other appliances, baseboards and storage areas. Apply spray until area is wet, but not to the point of runoff. Repeat as necessary.

ANTS: To kill ants, spray trails, nests and points of entry within buildings and homes. Spray directly on ants where possible. Repeat as necessary.

FLEAS, BROWN DOG AND LONE STAR TICKS: Thoroughly apply as a spot treatment to infested areas such as pet's beds and resting quarters: nearby cracks and crevices; along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean fresh bedding after treatment of pet areas. **DO NOT TREAT PETS WITH THIS PRODUCT.** Treat pets with a product registered for animal application to control the source of flea and tick infestation.

CARPET BEETLES: Thoroughly apply as a spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving and wherever else these insects are seen or suspected.

ATTENTION (PESTS INDOORS): Do not apply this water-based product in conduits, motor housings, junction and switch boxes or other electrical equipment because of possible shock hazard. If there is need to treat such areas use only oil-based sprays. Prior to application, de-energize electrical equipment. After application, allow time for oil to evaporate before starting motors or placing switches in the "ON" position.

RESIDUAL SPRAY: Aids in the control of *Cockroaches, Crickets, Silverfish, Centipedes, Millipedes, Earwigs, Sowbugs*. Kills up to 4 weeks. Apply on baseboards, cracks and crevices, around door and window frames, and other hiding places such as closets, in back of and under appliances, sinks and cupboards in kitchens and bathrooms. In basements, apply in hiding places in cracks and crevices, lower walls and dark places. Apply as a coarse wet spray in a 6 inch band until area is thoroughly wet but not to the point of run-off. Treat on a monthly basis as necessary.

PESTS OUT-OF-DOORS

GENERAL INFORMATION: Use Aquakill Plus Roach Spray for the control of certain pests on the outside surfaces of buildings. Consult the following directions for dosage and application details to control the pests listed.

PESTS ON OUTSIDE SURFACES OF BUILDINGS: Use Aquakill Plus Roach Spray to control *Ants, Clover Mites, Crickets, Earwigs, Millipedes, and Sowbugs* by application as a residual spray or with a paintbrush to outside surfaces of buildings, including porches, screens, window frames, eaves, patios, garages, refuse dumps and other areas where these pests congregate or have been seen. Do not treat or allow the spray to contact plants (lawns, flowering plants, shrubs, trees, evergreens, etc.) because of possible injury. Repeat treatment as needed to maintain effectiveness.

NOTE: To help prevent infestation of buildings by *Ants, Crickets, Earwigs, and Sowbugs (Pillbugs)*, treat a band of soil 6 to 10 feet wide around and adjacent to the buildings, also the building foundation, to a height of 2 to 3 feet, where pests are active and may find entrance. Use 7.7 ounces of Aquakill Plus Roach Spray per gallon of water and apply as a coarse spray at the rate of about 1 gallon per 100 sq. ft. to thoroughly and uniformly wet the band.

WARRANTY STATEMENT

Our recommendations for the use of this product are based upon tests believed to be reliable. The use of the product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its misuse as such, or in combination with other materials.
