Dursban 1/2-D Insecticide

Controls Numerous Pests of Households

ACTIVE INGREDIENT

Chlorpyrifos [O-Diethyl-O-(3,5,6-trichloro-2-pyridyl) phosphorothioate]

0.5%

INERT INGREDIENTS

99.5%

PRECAUTIONARY STATEMENTS - Irritant to eyes. Avoid contact with eyes. Avoid contact with skin. Avoid contact with clothing. Avoid contact with food, feedstuffs, and water supplies.

HAZARD TO HUMANS AND DOMESTIC ANIMALS - May be harmful if swallowed. May be harmful if inhaled. May be harmful if absorbed through the skin.

KEEP OUT OF THE REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
Avoid Contact With Eyes, Skin Or Clothing • Wash Thoroughly After Handling • Wash Contaminated Clothing Before Reuse • Avoid Breathing Dust May Be Harmful If Swallowed • Do Not Allow Dust To Contact Food, Feedstuffs, And Water Supplies • Thoroughly Wash Dishes And Food Handling Utensils With Soap And Water If They Become Contaminated By Application Of This Product • Do Not Allow Children Or Pets To Contact Treated Surfaces • Remove Pets And Cover Fish Bowls, (Tanks) Before Applying • Do Not Use In Poultry Houses Or Other Animal Buildings.

STATEMENT OF PRACTICAL TREATMENT

If On Skin - Wash with plenty of soap and water. Get medical attention if irritation persists. **If In Eyes** - Flush eyes with plenty of water for 15 minutes. Get medical attention if irritation persists. **If Swallowed** - Drink four glasses of water and induce vomiting by touching back of throat with finger. Do not give anything by mouth to anyone who is unconscious. Get medical attention.

Note to Physician - Chlorpyrifos is a cholinesterase inhibitor. Treatment should be symptomatic and supportive.

ENVIRONMENTAL HAZARDS

This product is highly toxic to bees exposed to direct treatment of colonies. Protective measures should be taken to prevent the drift of dusts, mist, spray, or aerosols to bees.

This product is highly toxic to fish and other aquatic life. Do not apply directly to water or to areas where it will drift into water. Do not apply to areas where it will drift into water.

USE DIRECTIONS

This is a violation of Federal law to use this product in a manner inconsistent with its label.

For Control of Insects: Dursban 1/2-D is a ready-to-use insecticide dust which controls pests as indicated below. Apply directly to cracks and crevices or other localized areas with a dust blower or other suitable equipment. The amount of dust to be applied will vary, but should be sufficient to lightly cover the surface.

Application Within Food Handling Establishments (Places Other Than Private Residences In Which Food Is Held, Processed, Prepared or Served) Including, But Not Limited To: Restaurants, Grocery Stores, Bakeries, Bottling Plants, Canneries and Grain Mills. Use as a spot treatment in and around both food and non-food areas to control cockroaches (including strains resistant to certain other insecticides), ants, crickets, fleas, silverfish, spiders, and stored product insects such as confused flour beetles, sawtoothed grain beetle, Indian meal moth, rice weevils, Mediterranean flour moths, and red flour beetles. Apply as a light but uniform dust to localized areas. Do not allow the dust to contact food or food-contacting surfaces. Areas treated may include dark corners of rooms and closets, along and behind baseboards, beneath and behind stoves, refrigeration units, and similar food preparation areas and equipment, floor drains, and around plumbing and other utility installations. For ants apply in ant trails and wherever these pests may be entering. Repeat treatment as needed but not more often than once every 7 days in restaurants and similar food handling establishments or more often than once every 14 days in other types of food handling establishments. In case of emergency use of Dursban 1/2-D may be applied after 2 days from the last treatment, but emergency use should be limited to one application.

APPLICATION OF THIS PRODUCT IN FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT TREATMENT IS NOT PERMITTED. APPLICATION AS A SPOT TREATMENT SHOULD NOT BE MADE IN SERVING AREAS WHILE FOOD IS BEING SERVED.

Application Within Residential Buildings Including Homes and Apartment Buildings and Within Non-food Areas of Industrial, Institutional, and Commercial Buildings Including Hospitals, Stores, Manufacturing Plants and Warehouses. For Spot Treatment Use:

Apply as a light but uniform dust to localized areas where cockroaches (including strains resistant to certain other insecticides), ants, crickets, fleas, silverfish and spiders are found or where they are likely to enter. Apply to dark corners of rooms and closets, under and behind baseboards, walls, along and behind baseboards, beneath and behind stoves, along refrigerator and behind around plumbing and other utility installations. For ants apply in ant trails and wherever these pests may be entering. Apply wherever these pests are suspected.

For Control of Carpet Beetles: Apply dust as a spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture in closets and dressing rooms and wherever else these insects are suspected.

For Control of Fleas and Ticks: Apply dust as a spot treatment to infested areas such as pet bedding, dog and cat quarters, nearby drains and crevices, along and behind baseboards, window and door frames, and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment. DO NOT TREAT PETS WITH THIS PRODUCT. To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals.

Carpenter Ants: Apply dust around doors and windows and other places where ants enter premises and where they crawl or hide. Also force dust into cracks and crevices or through openings or small newly drilled holes into wall voids where ants and/or nests are present. Use a sufficient amount to lightly cover area surfaces.

Wasps, Bees and Hornets: Apply on nest and surrounding area. To treat nests in wall voids, drill a hole in the wall, blow in dust and reseal. Do not use this product to treat overhead nests.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonable fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. Neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
