Dursban* 1-D

Insecticide

Controls Numerous Pests of Households

ACTIVE INGREDIENT

Chlorpyrifos [0,0-diethyl-0-(3,5,6-trichloro-2-pyridyl)phosphorothioate] 1%

INERT INGREDIENTS 99%

EPA Registration No. 10370-XX

EPA Est. 10370-TX-1

PRECAUCION AL USUARIO: Si usted no lee inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.

TRANSLATION: (TO THE USER: If you cannot read English, do not use this product until the label has been fully explained to you.)

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
Avoid Contact With Eyes, Skin Or Clothing • Wash Thoroughly After Handling • Wash Contaminated Clothing Before Reuse • Avoid Breathing Dust May Be Harmful If Swallowed • Do Not Allow Dust To Contact Food, Feedstuffs, And Water Supplies • Thoroughly Wash Dishes And Food Handling Utensils With Soap And Water If They Become Contaminated By Application Of This Product Do Not Allow Children Or Pets To Contact Treated Surfaces • Remove Pets And Cover Fish Bowls (Tanks) Before Applying Do Not Use In Poultry Houses Or Other Animal Buildings

STATEMENT OF PRACTICAL TREATMENT

If On Skin: Wash with plenty of soap and water. Get medical attention if irritation persists. **If In Eyes:** Flush eyes with plenty of water for 5 minutes. Get medical attention if irritation persists. **If Swallowed:** Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not give anything by mouth to an unconscious person. Get medical attention.

Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

ENVIRONMENTAL HAZARDS

This product is highly toxic to bees exposed to direct treatment or residues on plants. Projective information may be obtained from your Cooperative Agricultural Extension Service.

DURSBAN 1-D is toxic to fish, birds, and other wildlife. Keep out of any body of water. Do not contaminate water by cleaning of equipment, or disposal of wastes.

USE DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Dursban 1-D insecticide is a ready-to-use insecticidal dust which controls pests as indicated below. Apply directly into cracks and crevices or other localized areas with a bulbous duster or other suitable equipment. The amount of Dursban 1-D to be applied will vary, but should usually be in the range of $\frac{1}{8}$ to $\frac{3}{8}$ ounces per square yard.

Application Within Food Handling Establishments (Places Other Than Private Residences In Which Food Is Held, Processed, Prepared or Served) Including, But Not Limited To, Restaurants, Grocery Stores, Bakeries, Bottling Plants, Canneries and Grain Mills: Use as a spot treatment in and around only non-food areas to control cockroaches (including strains resistant to certain other insecticides), ants, crickets, firebrats, silverfish, spiders, and stored product insects such as confused flour beetles, sawtoothed grain beetles, Indian meal moths, rice weevils, Mediterranean flour moths, and red flour beetles. Apply as a light but uniform dust to localized areas. Do not allow the dust to contact food or food-contacting surfaces. Areas treated may include dark corners of rooms and closets, along and behind baseboards; floor drains; and around plumbing and other utility installations. For ants apply to ant trails and wherever these pests may find entrance. Repeat treatment as needed but not more often than once every 7 days in restaurants and similar food service establishments or more often than once every 14 days in other types of food handling establishments. In case of emergency (call back), Dursban 1-D may be applied after 2 days from the last treatment, but emergency use should be limited to once per month.

APPLICATION OF THIS PRODUCT IN FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT TREATMENT IS NOT PERMITTED. APPLICATION OF THIS PRODUCT IN FOOD PREPARATION AREAS IS NOT PERMITTED. APPLICATION AS A SPOT TREATMENT SHOULD NOT BE MADE IN SERVING AREAS WHILE FOOD IS BEING SERVED.

Application Within Residential Buildings Including Homes and Apartment Buildings and Within Non-food Areas of Industrial, Institutional, and Commercial Buildings Including Hospitals, Stores, Manufacturing Plants and Warehouses: For Spot Treatment Only — Apply as a light but uniform dust to localized areas where cockroaches, (including strains resistant to certain other insecticides), ants, clover mites, crickets, firebrats, silverfish and spiders are found or normally occur including dark corners of rooms and closets; cracks and crevices in walls, along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets; around plumbing and other utility installations. For ants apply to ant trails, also around doors and windows and wherever else these pests may find entrance.

For control of carpet beetles, apply dust as a spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected.

For control of ticks and fleas, apply just as a spot-treatment to infested areas such as pet beds and resting quarters, near-by cracks and crevices; along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment. DO NOT TREAT PETS WITH THIS PRODUCT. To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals.

Carpenter Ants and Formosan Termites: Apply dust around doors and windows and other places where ants enter premises and where they crawl or hide. Also force dust into cracks and crevices or through openings or small newly drilled holes into wall voids where ants and/or nests are present. Use a sufficient amount to tightly cover area surfaces.

Wasps, Bees and Hornets: Apply dust on nest and surrounding area. To treat nests in wall voids, drill a hole in the wall, blow in dust and reseal. Do not use this product to treat overhead nests.

Disposal

Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
