Rose and Floral Dust Ready To Use		

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Ford's Chemical & Service, Inc.
 2739 Pasadena Blvd.
 Pasadena, TX 77502

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 10370-154" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.
4. The additional brand name "Rose And Flower Dust" is acceptable. Note that the label must be identical with that of the basic label accepted under this registration.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO USE — This product contains an insecticide and two fungicides for use on roses and other flowering ornamentals. Thoroughly dust the entire plant to deposit a fine dust residue on all portions of the plants; stems, flower buds and open flowers and both sides of leaves. To apply use the "Squeeze Duster" container or apply with a suitable mechanical duster. Apply when the air is calm. Apply in such a manner as to move away from the dusted area. Do not walk into the airborne dust.

WHEN TO USE — Begin applications before diseases are expected to appear and before insect damage is eminent. This can be done by dusting new growth foliage as it appears in the spring or when new plants are first set out. Repeat applications at 7 to 10 day intervals or as necessary to maintain control.

HOW MUCH TO USE — Dust plants thoroughly. As a guideline between 10 ounces and 1 pound per 1,000 sq. ft. of plants. This should equal about 40 lbs. per acre.

INSECTS CONTROLLED — Rose Aphid, Rose Chafer, Rose Slugs, Leafhoppers, Grasshoppers, Fullers Rose Beetle, Lace Bugs, Exposed Thrips, Ants, and suppresses Spider Mites.

DISEASES CONTROLLED — Black Spot and Powdery Mildew on Roses; Petal Blight on Azaleas and Camellias; Anthracnose, Leaf Spot and Rust on Carnations, Chrysanthemums, Hollyhocks and Snapdragons, Botrytis Blight, Curvularia, and Stemphyllium on Gladiolus; Leaf Blight on Zinnias.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if inhaled or swallowed. May cause irritation of eyes, nose, throat and skin. Do not breathe dust. Avoid contact with skin and eyes. Wear regular long-sleeved work clothing. Change to clean clothing daily. Wash hands and face before eating or smoking. Avoid contamination of feed and foodstuffs.

NOTE TO PHYSICIAN: Carbaryl is a moderate, reversible cholinesterase inhibitor. Atropine is antidotal. Do not use 2-PAM, opiates, or cholinesterase inhibiting drugs.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not apply when weather conditions favor drift of dust from the area treated. Do not contaminate water by cleaning of equipment or disposal of wastes. **BEE CAUTION:** This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store product in original container in a cool, dry, locked, place out of reach of children. **DISPOSAL:** Do not reuse empty container. Wrap and put in trash.

NOTICE — Buyer assumes all risk and liability of use, storage and/or handling of this material not in accordance with the terms of this label.
