18 / 1

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

- Add the phrase "EPA Registration No. 10370-160."
- The figure in ounces for the active ingredient concentrate does not agree with the figure in pounds. You must clarify.
- You must describe the conditions of measurement of pH of the product--dilution, if any, and temperature.
- ~~\_\_\_\_\_~~  
~~\_\_\_\_\_~~  
~~\_\_\_\_\_~~
- You must update the storage and disposal statement on the label.

BEST AVAILABLE COPY

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

## PRECAUTIONARY STATEMENTS

### Hazards To Humans And Domestic Animals

**CAUTION:** Harmful if swallowed or absorbed through the skin. Avoid breathing vapors. Avoid contact with eyes, skin or clothing. In case of contact, immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists. Remove pets, birds, and cover fish aquariums before spraying.

## STATEMENTS OF PRACTICAL TREATMENTS

If swallowed: Call a physician or Poison Control Center immediately. Induce vomiting by giving victim 1 or 2 glasses of water and touching back of throat with finger. Never give anything by mouth to an unconscious person. If in eyes: Flush with plenty of water. If irritation persists get medical attention. If on skin: Wash with plenty of soap and water.

## ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to lakes, streams, or ponds (water). Do not contaminate water by cleaning of equipment or disposal of wastes. Shrimp and Crab may be killed at application rates recommended on this label. Do not apply where these are important resources.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Do not reuse empty container. Wrap container and put in trash collection.

**NOTICE** — Buyer assumes all risk and liability of use, storage and/or handling of this material not in accordance with the terms of the label.

## INDOOR INSECT CONTROL

For control of Flies, Fruit Flies, Mosquitoes, and Small Flying Insect Moths adjust sprayer nozzle to produce a very fine spray "floating" mist. Cover or remove exposed food and food handling surfaces. Close windows and doors and shut off ventilating systems. Direct the spray mist to the upper portions of the room filling the air with the mist and hitting as many insects with the spray as possible. Use 2 to 4 ounces per 1,000 cubic feet of space. Keep area closed for at least 30 minutes. Vacate the treated area and ventilate before re-entry. Repeat treatment as necessary.

## OUT-OF-DOORS ADULT MOSQUITO CONTROL

Apply as a "fine floating mist" to thoroughly treat the entire area. Treat when the air is calm. Apply to shrubbery and vegetation where mosquitoes may rest particularly around insect breeding places such as swamps, marshes, stagnant pools of water and ponds. Apply at the rate of 4 ounces per 1,000 sq. ft. of area or approximately 5 to 6 quarts per acre.

## OUT-OF-DOORS ADULT FLEA CONTROL

When Fleas are known to be present in areas adjacent to dwellings apply as an Over-All Spray Mist application to turf grasses & vegetation, under and around porches and home entrance ways, along the house foundation and where ever pets may rest or run. Repeat the treatment within one week to kill any new insects that may have emerged. Pet living quarters and also the pets should be treated with a suitable approved product for control of Fleas on the animals. Repeat treatments as needed for control.

## ROSES & FLOWERS

INSECTS	PLANTS
For Aphids, Flea Beetles, Leafhoppers, Thrips, Pear Bug, Rose Chalcid, Cutworms, Spider Mites & White Flies	TM — African Violets, Azaleas, Begonias, Camellias, Dahlias, Dogwood, Roses, Wandering Jew, Asters, Carnations, Chrysanthemums, Geraniums, Gladiolus, Margolds

On tender plants such as Ferns and Hydrangeas, treat one leaf or stem to check for sensitivity. Wait several days, then treat entire plant, if safe.

**NOTE:** Plan on two applications 1 week apart for best control. Apply as a light mist to plant foliage, stems, and fruit. Do not spray to point of run-off. Repeat treatments as needed for continued insect control.

**NOTE:** For best insect control on vegetables plan on two applications the first and second week since this spray is not residual. A light mist on the plant foliage is all that is necessary. Do not spray to point of run-off.

## VEGETABLES

ASPARAGUS BEANS	Aphidius, Leafhoppers, White Flies, Mexican Bean Beetle, 12 spotted Cucumber Beetle, Spider Mites
BROCCOLI, CALA FLOWER, CABBAGE, BRUSSEL SPROUTS	Aphidius, Cabbage Looper, Cross striped Cabbage Worm, Diamond Back Moth larvae, Flea Beetles, Harlequin Bug, Imported Cabbage Worm, Saw Bug
CELERY	Green Peach Aphid, Cabbage Looper, Leafhopper
CRANBERRIES	Cutworms, Leafhoppers
EGGPLANT	Beetles, Beetles, Colorado Potato Beetle, Flea Beetles, Green Peach Aphid
LETTUCE	Cabbage Looper, Green Peach Aphid, Diamond Back Moth larvae, Imported Cabbage Worm
MUSTARD GREENS, KALE, COLLARDS, TURNIPS	Imported Cabbage Worm, Diamond Back Moth larvae, Aphidius, Cabbage Looper
PEPPERS	Green Peach Aphid
POTATOES	Aphidius, Colorado Potato Beetle, Flea Beetles, Leafhoppers
RADISHES	Aphidius, Flea Beetles
SPINACH	Aphidius, Cabbage Looper, Wireworms
TOMATOES	Green Peach Aphid, Colorado Potato Beetle, Saw Bug, White Flies, Flea Beetles, Aphidius, Mites
