NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 10370-194."
 - b. ~~Please specify the surfactants on your Confidential Statement of Formula Use and Storage by Pest Control Operators/Commercial Applicators~~
On the front panel add the statement "Only for Sale to"
 - c. Make the following changes on your labeling.
 - (1) Add "named" between "other" and "Household" in the subheading.
 - (2) Change "Give Milk of Water" to "Give Milk or Water" in the "If Swallowed" section.

SIGNATURE OF APPROVING OFFICIAL: *[Signature]* DATE: *6/29/87*

(3) Change "Note to Physician" to:

Diazinon is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing vapor & spray mist. Provide adequate ventilation of area being treated. Contact with skin, eyes or clothing should be avoided. Wash thoroughly after using and before eating or smoking. Avoid contamination of food, utensils and food preparation areas. Keep children and pet off treated areas until the areas are dry. Animal studies have indicated this product to be contact allergenic. Hypersensitive individuals should avoid overexposure.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply directly to any body of water. Do not allow pets or children in treated areas until spray has dried.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store product in its original labeled container in a cool, dry, locked place out of reach of children. Keep from freezing. **DISPOSAL:** Do not re-use empty container. Wrap and put in trash collection.

GENERAL INFORMATION

This product is ready to use. It is intended for use in buildings, offices, restaurants, households and other similar areas for the control of those pests specified on this label.

NOTE: Care should be taken to avoid spotting of walls, or wall coverings and fabric. When used in dwellings, care should be taken to avoid deposits which could be frequently contacted by children. Remove or cover fish bowls and remove pets in treated areas until surfaces are dry. Do not contaminate food, food containers, or cooking utensils. Avoid excessive application to carpets. Do not use on plants or pets. Do not use this product in conduits, motor housings, or electrical switch boxes.

COCKROACHES: (Waterbugs), **ANTS,** **SILVERFISH:** Make spot applications as a coarse spray or apply with a paintbrush to baseboards, areas around water pipes, cracks and crevices., surfaces behind and beneath cabinets, refrigerators, sinks, stoves and similar areas where these insect hide. Spray area until wet. Repeat application as necessary to maintain control.

CARPET BEETLES: Apply as a spray in spot applications along baseboards and edges of carpeting, under carpeting and rugs and furniture, in closets and on shelving, and wherever these insects are seen or suspected. Avoid excessive wetting of carpets.

SPIDERS AND SCORPIONS: Apply as a spray around windows, doors, and along baseboards. Make spot applications to other areas over which these pests may crawl.

DIAZINON 1% ME

DIRECTIONS FOR USE (Cont.)

PANTRY PESTS - Exposed Stages of Sawtoothed Grain Beetle, Flour Beetle, Rice Weevil, Cigarette Beetle, Drugstore Beetle, and Indian Meal Moth. Apply as a spray to shelves and cupboards where food containers suspected of being infested are stored. Remove all food and shelving paper before spraying. Do not replace the food packages until spray has dried. Cover shelves with shelving paper. This treatment is supplemental to good housekeeping, since it will have no effect on insects breeding within food packages. Infested food packages should be destroyed.

BROWN DOG TICKS, FLEAS*: Make a thorough application as a spray to infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floors and floor covering. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this product. Repeat as necessary. Avoid excessive wetting of floor covering, rugs or unfinished material as damage may occur. Do not apply directly to upholstery. Do not use as an overall spray.
*CONTROLS ADULT FLEAS ON AREAS TREATED.

FOOD AND FEED HANDLING ESTABLISHMENTS: (Including places other than private residences in which exposed food or feed is held, processed, prepared or served. Apply as a spray; either a crack and crevice or spot treatment as directed below. Do not apply to areas, surfaces, or utensils which will come in contact with food. Take extreme care to avoid contamination of food of food contact surfaces or introducing the material into the air.

FOOD/FEED AND NONFOOD/FEED AREAS

FOOD/FEED AREAS (APPLICATION LIMITED TO CRACK AND CREVICE & SPOT TREATMENT ONLY)

Food/Feed areas include areas for receiving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible wastes storage, and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation are considered a food area) and includes facilities where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held.

CRACK AND CREVICE TREATMENT: As a crack and crevice treatment use equipment capable of delivering a pin stream of insecticide and apply in small amounts directly into such spaces as expansion joints, in points between different elements of construction, between equipment and floors, wall boards, baseboards, or openings leading into voids and hollow spaces in walls, hollow equipment legs and bases where Cockroaches (Waterbugs), Ants, Spiders and Silverfish hide.

SPOT TREATMENT: As a spot treatment apply as a coarse low pressure fan type spray to selective floor surfaces, areas around water pipes, beneath cabinets, refrigerators, sinks, stoves, storage areas, baseboards, under elements of construction and similar area where Cockroaches (Waterbugs), Ants, Spiders and Silverfish hide.

DIRECTIONS FOR USE (Cont.)

SPOT TREATMENT: (Cont.)

Limit spot treatments to floor surfaces where pests have been seen or where they are suspected of hiding. Limit spot treatments to an area no larger than 20% of the floor surface. Any individual spot treatment shall not exceed two square feet.

Avoid treating surfaces likely to be contacted by food. Do not apply when facility is in operation or feeds are exposed.

These treatments also aid in the control of Pantry Pests (exposed stages of Saw Toothed Grain Beetle, Flour Beetle, Rice Weevil, Cigarette Beetle, Drugstore Beetle, and Indian Meal Moth) which come into contact with treated surfaces. Do not use this product in conduits, motor housings, or electrical switch boxes, Repeat applications as necessary.

* * * * *

APPLICATIONS OF THIS PRODUCT IN FOOD/FEED AREAS OF FOOD OR FEED HANDLING ESTABLISHMENTS OTHER THAN A CRACK AND CREVICE TREATMENT AND SPOT TREATMENT ARE NOT PERMITTED.

NONFOOD/FEED Areas: Nonfood/Feed areas include Garbage Rooms, Lavatories, Floor Drains (to sewers), Entries and vestibules, offices, lockerooms machine rooms, boiler rooms, garages, mop closets, and storage (after canning and bottling).

In nonfood/feed areas apply as a spot treatment using a coarse, low pressure spray to baseboards areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets, and similar areas where insect hide or through which they may enter.

NOTICE: Buyer and user assume all risk and liability of use, storage and/or handling of this product not in accordance with the terms of this label.
