DIRECTIONS FOR USE (Cont.)

HOW TO APPLY TO CARPETING

Shake well before using since settling may have occurred in shipment. Punch out holes in shaker top. For use on Carpets* (see *IMPORTANT) hold container up-side down and shake powder evenly across the carpet or rug surfaces. Brush lightly with a broom to allow powder to penetrate carpet fibers. WAIT 60 MINUTES (1 HOUR), then vacuum the area. For severe problems or where Ticks are known to be hiding, wait 2 to 3 hours before vacuuming. If powder adheres to spot, brush it out and vacuum immediately. APPLY TO DRY SURFACES ONLY. Do not allow powder to become wet.

FOR USE ON UPHOLSTERY

For use on upholstery, remove all loose cushions. Sprinkle along creases, in corners. Brush gently, wait 60 minutes, then vacuum. Sprinkle along undersides of furniture. Do not use on exposed fabric; may cause staining. Remove bag from vacuum cleaner; wrap securely in several layers of newspaper and discard in trash.

It is advised to clean or shampoo your carpeting after treatment.
