

NOTICE OF PESTICIDE Reregistration  
(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

Ford's Tetracide Multi-Purpose  
Horse Spray Concentrate

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Ford's Chemical & Service, Inc.  
2739 Pasadena Boulevard  
Pasadena, TX 77502

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) or 4(a) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase "EPA Registration No. 10370-237."
- b. The petroleum distillates should be included in the total percentage of inert ingredients.
- c. The footnote "Contains petroleum distillates" must then be added to the label ingredient statement.
- d. Change the Environmental Hazards statement to read:

This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift and runoff from treated sites may be hazardous to fish in adjacent

waters. Do not contaminate water when disposing of equipment washwaters.

- e. Change the precautionary statements dealing with food processing to read:

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is under way. After spraying in food processing plants, wash with an effective cleaning compound and rinse with potable water all equipment, benches, shelving, etc., where exposed food will be handled. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Philutton  
Product Manager (17)  
Insecticide-Rodenticide Branch  
Registration Division (N7505C)

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans and Domestic Animals**

**CAUTION:** Harmful if swallowed. The use of this product in food processing plants should be confined to time periods when the plant is not in operation. Foods should be removed or covered during treatment and thoroughly cleaned and rinsed with potable water before using. Wash all contaminated clothing with soap and hot water before reuse. Remove pets, birds, and cover fish aquaria before spraying. When used in hospitals, patients must be removed from the room and the rooms aired for two hours prior to re-entry.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Contact a physician or Poison Control Center immediately. Do not induce vomiting. Vomiting may cause aspiration pneumonia.

**IF INHALED:** Remove affected person to fresh air. Apply artificial respiration if indicated.

**IF ON SKIN:** Remove contaminated clothing and wash affected areas of skin with soap and water. Contact a physician if irritation persists.

**IF IN EYES:** Flush with plenty of water. Contact a physician if irritation persists.

### ENVIRONMENTAL HAZARDS

Do not apply outdoors when weather conditions favor drift from area treated. This product is toxic to fish and birds. Do not apply directly to lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

### PHYSICAL AND CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 degrees F may cause bursting.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

Water dilutions should be prepared at room temperature. Exposure to low temperatures may cause cloudiness or crystallization.

### STORAGE AND DISPOSAL

#### CONTAINERS LARGER THAN ONE GALLON:

Do not contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE AND SPILL PROCEDURES: Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, fuller's earth, etc. Dispose of with chemical waste. PESTICIDE DISPOSAL: Pesticide spray mixture or rinse water that cannot be used according to label instructions must be disposed of at or by an approved waste disposal facility. CONTAINER DISPOSAL: Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.

#### CONTAINER ONE GALLON AND SMALLER:

Store in original container in a cool, dry place inaccessible to children and pets. Do not reuse container, wrap container in several layers of newspaper and discard in trash.

### SURFACE SPRAY

This concentrate should be diluted with water before use, at a rate of 1 part concentrate to 9 parts water. The diluted spray should be applied in conventional, mechanical or compressed air spraying or fogging equipment. It is not recommended for use in thermal generating equipment.

Control cockroaches, ants, spiders, silverfish, crickets, centipedes, earwigs, sowbugs and grain mites: Apply as a coarse mist spray directed into cracks, crevices and other hiding places, along baseboards, around the bases of machinery and under pallets. Treat all returned bottle cartons and cases. Spray thoroughly, contacting insects directly whenever possible. Spray badly infested areas daily. In other areas, repeat treatment twice weekly or when reinfestation occurs.

#### SPACE SPRAY

This concentrate should be diluted with water before use, at a rate of 1 part concentrate to 19 parts water. The diluted spray should be applied in conventional, mechanical or compressed air spraying or fogging equipment. It is not recommended for use in thermal generating equipment.

To control houseflies, mosquitoes, gnats and flying moths: Close doors and windows and shut off ventilating systems; turn off all flames and pilot lights. Apply as a fog or fine mist directing the spray toward the upper portions of the room and toward windows and other light sources which attract these insects. Thoroughly fill the area with mist using 1/2 to 1 ounce per 1,000 cubic feet of space. Keep area closed for at least 10 minutes. Vacate after treatment and ventilate before reoccupying. Repeat treatment as needed.

#### ON ORNAMENTAL PLANTS:

Dilute this concentrate at the rate of 1 part material to 79 parts water. To control aphids, two-spotted spider mites and adult whiteflies on ornamental house and garden plants (African violet, azalea, Christmas cherry, chrysanthemum, cineraria, diffenbachia, fuschia, gloxinia, ivy, lantana, Neanthe bella palm, petunia, rose and snapdragon, and on outdoor plants such as azalea, chrysanthemum, euonymus, ivy, marigold, petunia, rose, snapdragon and zinnia). Apply as a fog or fine mist, spraying plants with a sweeping motion so that the mist drifts into the plants. Direct spray so that the upper and lower portions of leaves are contacted. Use caution on new growth and tender foliage. When using outdoors, spray when air is still. Repeat as necessary.

To control mealybugs and leafminer, dilute at the rate of 1 part concentrate to 39 parts water and apply in the same manner as given above.

To control gypsy moths and caterpillars, forest and tent caterpillars, canker worms, garden webworms, and the above pests on ornamental trees, spray as above. Do not spray bearing fruit trees.

#### IN HORSE BARN AND ON HORSES:

Dilute 1 part concentrate with 19 parts water and apply as a fine mist spray to stable area, and over and around stabled horses to provide quick relief from annoying flies, mosquitoes, and gnats. May also be sprayed directly on horses. DO NOT USE ON HORSES INTENDED FOR HUMAN CONSUMPTION.
