DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake Well Before Use

To operate hold can upright, direct orifice toward the surface to be treated and press the actuator button.

Precautions: 1) Do not use this product indoors as an overall surface spray or as a space spray; take care not to introduce this product into the air during application. 2) Use only in well-ventilated areas. 3) Do not apply where children are likely to frequently contact treated surfaces. 4) Remove or cover fish bowls and remove pets before application. 5) Do not treat pets or plants with this product. 6) Do not allow children or pets in treated areas until spray has dried. 7) If clothing is sprayed during application, remove clothing immediately after spraying and launder before wearing again. 8) Do not apply directly to carpets or floor coverings and avoid excessive wetting of asphalt tile, rubber and plastic materials because damage may occur. 9) Care should be taken to avoid spotting of walls, wall coverings and fabrics. 10) Do not apply directly to upholstery or furniture. 11) Do not apply to areas, surfaces or utensils which will contact food or feed. 12) Exposed food should be covered or removed during application. 13) All food processing surfaces and utensils should be covered during application or thoroughly washed with soap and water before use. 14) Do not use in edible product areas of feed processing plants, restaurants, or other places where food or feed is commercially prepared or processed. 15) Do not use in conduits, motor housings or electrical switch boxes.

To kill ants, carpet beetles, centipedes, cockroaches, crickets, earwigs, firebrats, pillbugs, silverfish and spiders: Thoroughly apply as a spot treatment to areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices, under carpets, along baseboards and door sills and frames; behind and beneath sinks, stoves, refrigerators, cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. Spray ant trails, nests and points of entry.

To kill brown dog ticks: Apply thoroughly as a spot treatment to infested areas such as pet beds and resting quarters, and nearby cracks and crevices; along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Fresh bedding should be placed in animal quarters following treatment. Do not spray pets with this product.

To control houseflies, gnats, hornets, mosquitoes, small flying moths, wasps and yellow jackets: Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized resting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.

SERVING AREAS - SPOT TREATMENT

Application of this product in the food areas of food handling establishments other than as a spot and/or crack and crevice treatment is not permitted.

Application within food handling establishments: (Places other than private residences in which exposed food is held, processed, prepared or served including, but not limited to, areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing foods, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) and serving areas (when food is exposed and facility is in operation): Use as a crack and crevice treatment in and around both food and nonfood areas to control ants, cockroaches, crickets, silverfish, spiders and waterbugs. Apply in small amounts directly into cracks and crevices, delivering a pin stream of insecticide in points between different elements of construction, between equipment and floor, openings leading to voids and hollow spaces in walls, equipment legs and bases, in conduits, motor housing, junction or switch boxes. Prior to application de-energize electrical equipment. Limit spot treatments to floor surfaces where pests have been seen or where they are suspected of hiding. Limit of individual spot treatment should not exceed two square feet. Take extreme care that the product is not introduced directly into the air. Avoid contamination of food and food processing surfaces.

Application within food serving area (facilities where foods are served, such as dining rooms, but excluding areas where food may be prepared or held): Apply as a spot treatment to selected surfaces, such as baseboards, under elements of construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. Do not apply when facility is in operation or foods are exposed.

STORAGE: Store in a cool, dry place (preferably locked) inaccessible to children and pets and away from direct sunlight, flames and other sources of heat or ignition.

DISPOSAL: Replace cap, wrap container in several layers of newspaper and dispose in trash. Do not incinerate or puncture.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid inhalation and skin contact; wash thoroughly after using and before eating or smoking. May cause contact sensitization following repeated contact with skin of susceptible individuals. Avoid repeated contact with skin. If sensitization reactions result, consult a physician. Avoid contamination of feed and foodstuffs. Do not use on household pets or humans. Remove pets from area and cover fish bowls before spraying. Do not allow children or pets in treated areas until surfaces have dried.

Statement of Practical Treatment

If Swallowed: Call a physician immediately. Do not induce vomiting unless no other treatment is available. Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give person one or two glasses of water and touch finger to back of throat. Do not induce vomiting or give anything by mouth if person is unconscious or convulsing. **If Inhaled:** Remove person to fresh air and apply artificial respiration if indicated. **If On Skin:** Promptly wash skin with soap and water. Rinse thoroughly. **In Eyes:** Flush eyes with plenty of water and call a physician immediately. **NOTE TO PHYSICIAN:** This product is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine. Product contains xylene range aromatic solvent, which may present an aspiration hazard. Gastric lavage is indicated if product was taken internally.

Environmental Hazards

This pesticide is highly toxic to birds, fish and other wildlife. Birds feeding or drinking on treated areas may be killed. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply directly to water or wetlands (~~swamps, bogs, marshes and potholes~~). Do not contaminate water by disposal. This pesticide is highly toxic to bees exposed to direct treatment or to residues on blooming plants where they feed. Do not allow this pesticide to contact blooming plants if bees are visiting the treatment area. Do not apply this product to or allow it to drift to food crops or any desirable vegetation at any time.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near fire, sparks or heated surfaces. Do not store in direct sunlight. Do not smoke while using this product. Do not puncture or incinerate container. Exposure to temperatures above 120° may cause bursting. Incineration of container may cause explosion.
