

RESCUE Ant & Roach Killer

Kills on contact, and its continuous killing action lasts up to 2 weeks. This is a multipurpose indoor household-use insecticide that also kills the pests listed below.
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Shake Well Before Use. To operate hold can upright, direct orifice toward the surface to be treated and press the actuator button. Do not spray air in room or use on plants. Apply as a localized surface spray only. Use only in well-ventilated areas.

To kill Ants, Carpet Beetles, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Pillbugs, Silverfish and Spiders: Thoroughly apply as a spot treatment to areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices, under carpets, along baseboards and door sills and frames; behind and beneath sinks, stoves, refrigerators, and cabinets; and around garbage cans and plumbing. Do not apply where children are likely to frequently contact treated surfaces. Before spraying this product, remove or cover all exposed food, and remove pets and cover fish aquariums. All food preparation sur-

faces and utensils should be covered during spraying or thoroughly washed with soap and water before use. Do not spray inside cabinets where food is stored. Do not use in conduits, motor housings, or electrical switch boxes. Pests driven out of hiding places should be sprayed directly. Spray ant trails, nests and points of entry.

To kill Brown Dog Ticks: Apply thoroughly as a spot treatment to infested areas such as pet beds and resting quarters, and nearby cracks and crevices; along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Fresh bedding should be placed in animal quarters following treatment. Do not spray pets with this product.

Storage: Store in a cool, dry area inaccessible to children and pets. Do not transport or store below 32°F. Exposure above 130°F may cause bursting. **Disposal:** Wrap container in several layers of newspaper and dispose of in trash. Do not incinerate or puncture.

Precautionary Statements: Hazards to Humans and Domestic Animals
CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling, and before smoking or eating. May cause contact sensitization following repeated contact with skin in susceptible individuals. Avoid repeated contact with skin. If sensitization reactions result, consult a physician. Do not spray household pets or humans with this product. Do not allow children or pets to contact treated surfaces until spray has dried.
STATEMENT OF PRACTICAL TREATMENT: If Swallowed: Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person. If On Skin: Remove contaminated clothing and wash affected areas with soap and water. If In Eyes: Flush eyes with plenty of water. Call a physician if irritation persists. If Inhaled: Remove victim to fresh air. Apply artificial respiration if indicated.
Note to Physician: This product contains an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.
PHYSICAL HAZARDS: Contents under pressure. DO NOT USE OR STORE NEAR HEAT OR OPEN FLAME. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting.
IMPORTANT NOTE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
