GENERAL INFORMATION:

WECO WEED KILLER 104 is a specially formulated nonselective chemical for controlling a wide range of annual and perennial weeds and grasses. It is recommended for use only on non-cropland areas such as railroad right-of-way, fence rows, parking lots, outdoor theaters and other industrial sites. The degree of control and duration of results will vary with the amount of WECO WEED KILLER 104 applied, soil type, rainfall and other conditions. Highly recommended for municipal weed control and for barren soil.

DIRECTIONS:

To control most annual and grasses on non-cropland areas such as railroad right-of-way and industrial sites for an extended time, apply 1 to 2 gals per 1000 sq. ft. or 43.5 to 87 gals per acre of undiluted WECO 104 after the most favorable weather conditions. No pre-treatment is required. WECO 104 can be applied with hand-carried, truck-mounted or other motor-sprayer equipment. For treating small areas, backpack-type hand sprayer or backpacking can be used. Users should consult experienced station or extension service weed specialists for recommendations as to use of WECO 104 in their particular area. Contact WECO service representatives.

DO NOT APPLY:
