

GENERAL INFORMATION:

WECO WEED KILLER 112 is a specially formulated nonselective vegetation killer. It is used on the basis of one gallon of water for each gallon of WECO 112 before spraying. WECO 112 has no harmful residual activity in soil at recommended rates. It is an aqueous contact weed killer specially prepared for municipal and industrial weed control.

DESCRIPTION OF PRODUCT:

WECO WEED KILLER 112 is a nonvolatile, nonexplosive, nonflammable aqueous formulation. It is essentially noncorrosive. It exhibits a very rapid action on aerial parts of plants. Under sunny/warm conditions the first symptoms can be observed within one to two hours. Severe wilting after 24 hours.

RECOMMENDATIONS FOR USE:

For treating 100 sq. ft. dilute one quart of WECO 112 with one quart of water and spray. For 1000 sq. ft. dilute 2.5 pints of WECO 112 with 2.5 pints of water and spray. For one acre dilute 100 gals. of WECO 112 with 100 gals. of water and spray. Spraying until vegetation is thoroughly wet is important for best results. Application may be made at any time during the growing season. Early application produces better results. Repeat applications should be made to control some perennials and later terminating annuals. Apply WECO 112 as a directed spray for the control of weeds at the base of trees, shrubs, vines, hedge plants. Avoid spray contact of the foliage of desirable plants. Use hand sprinker, hand sprayer or machine sprayer.

DO NOT APPLY: Do not allow spray to contact foliage or stems of desirable plants. Do not allow spray to contact desirable lawn grasses.

CONDITIONS OF SALE: WECO Chemical Company warrants that this material conforms to the chemical description on this label and is reasonably fit for use as directed herein. WECO neither makes nor gives any agent or representative to make any warranty of FITNESS, guarantee or representation, express or implied, concerning this material.

Control and unforeseen effects beyond WECO's control prevent it from eliminating all risks in connection with the use of this material. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability resulting from handling, storage and use of this material.
