

Made for Industrial and Institutional Use Only

FLY-A-WAY FLY SPRAY

ACTIVE INGREDIENTS:

Pyrethrins.....	0.15%
Piperonyl Butoxide Technical.....	0.30%*
N-Octyl Bicycloheptene Dicarboximide.....	0.60%
Petroleum Distillates.....	99.05%
TOTAL	100.00%

*Equivalent to 0.24 (Butylcarbityl) (6-propylpiperonyl) ether and 0.06 related compounds.

Keep Out of Reach of Children

CAUTION

See additional precautions on back panel.

Net Contents: One Liquid Gallon

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)**

CAUTION

Harmful if swallowed or inhaled. Avoid contact with eyes or skin. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

Remove or cover all exposed food during treatment. Cover all food processing surfaces during treatment or thoroughly clean before use.

Remove pets, birds and cover fish aquariums before spraying.

**PHYSICAL OR CHEMICAL HAZARDS
DO NOT USE OR STORE NEAR HEAT OR OPEN FLAME!**

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

Pesticide, spray, mixture, or rinseate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Triple rinse container (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill or bury in a safe place.

Consult federal, state or local disposal authorities for approved alternative procedures.

FOR INDOOR USE ONLY

Keep spray at least 36 inches away from walls, fabrics, furniture or floors — spraying closer may cause stains.

Most asphalt tile, some linoleum and certain plastic materials have a tendency to discolor and soften when wet with petroleum base insecticides. Before spraying, test such materials by applying to small inconspicuous areas.

TO KILL FLIES, MOSQUITOES, GNATS:

Close doors and windows, directing the spray up toward the ceiling. Fill the room with mist and keep it closed for 10-15 minutes. Sweep up dead or moribund insects and destroy them. Repeat treatment as often as needed.

TO KILL ROACHES, WATER BUGS AND SILVERFISH:

Spray liberally around refrigerators, sinks, all cabinets, around pantry shelves, into all cracks and crevices, in moulding and woodwork, pipe openings in walls and floors or wherever these insects are likely to hide. Repeat treatment as often as necessary.

TO KILL ANTS:

Use the spray so as to wet as many insects as possible, paying particular attention to nests and runways. Repeat treatment as often as necessary.

TO KILL BEDBUGS:

Bedsteads should be sprayed thoroughly in all corners, cracks and crevices. Springs and mattresses should be sprayed thoroughly after the bed is dismantled, paying particular attention to cracks, crevices, tufts and seams on mattresses, wallpaper that is loose, loose moulding and any place where the bugs may hide. Repeat treatment as often as necessary.

TO KILL CLOTHES MOTHS AND CARPET BEETLES:

Take special precautions to see that cracks in floors and openings below baseboards are thoroughly wetted with spray liquid. Wool lint and organic matter accumulating in these places will serve as breeding materials for such pests. Clothing to be stored should be cleaned and aired and sprayed carefully from a distance of one to two feet, taking care to see that seams and folds are wetted. Chests in which woollens are to be stored should be thoroughly sprayed before being filled with clothes. Closets should be sprayed liberally at least twice a month, directing the spray on the garments.

TO KILL FLEAS:

Liberally spray all infested places — rugs and under rugs, basements under porches, and wherever pet animals make their bed. Spray bedding of household pets. Do not spray animals directly. Repeat as required.
