### GENERAL INFORMATION

LESCOPEX is a stable aqueous solution containing the potassium salt of MCP, equivalent to 40 ounces of acid per gallon. It is non-flammable and non-corrosive to steel. LESCOPEX may be used on sports lawns, golf courses, bentgrass, bermuda grass, fescue, and other cool season leaf weeds, such as:

Common Chickweed	<i>Stellaria media</i>	Pigweed	<i>Amaranthus spp.</i>
Mouse-ear Chickweed	<i>Cerastium vulgatum</i>	Ragweed	<i>Ambrosia spp.</i>
Clover	<i>Trifolium spp.</i>	Lambsquarters	<i>Chenopodium album</i>
Plantains	<i>Plantago spp.</i>	Ground Ivy	<i>Eicema heteracea</i>
Knotweed	<i>Polygonum aviculare</i>		

### PRECAUTIONS:

Use only recommended dosages. Lower amounts may not give adequate weed control. Higher amounts may cause turf injury.

Store containers, tightly closed, away from greenhouses, weeds, insecticides, fungicidal sprays, fertilizers and water supplies.

Do not spray flower beds, borders, or ornamentals. LESCOPEX is a plant killer. Avoid allowing spray to drift over flowering plants, vegetable gardens, etc. Coarse sprays are less likely to drift. The first mowing after treatment should not be used as mulch for flowers and vegetables.

Wash out the spray equipment before using LESCOPEX. After use, rinse equipment, including nozzles, thoroughly with water containing a wetting agent. Frequent maintenance with this compound will tend to maintain the spray equipment in good working order.

### CAUTION

Do not be filled if their water are contaminated with this product. Ponds, streams, rivers and water courses MUST NOT be contaminated by direct application or washing from spray equipment.

### DIRECTIONS

**TIME OF APPLICATION:** Apply LESCOPEX to weeds when they are actively growing. Do not apply to dormant weeds.

### APPLICATION RATES

Use 1.0 to 1.5 gallons of LESCOPEX per 1000 sq. ft. of turf.

Established Turf: 1.0 to 1.5 gallons per 1000 sq. ft. of turf.

**MIXING:** Mix LESCOPEX with water in a clean container. Add LESCOPEX to water, not water to LESCOPEX. Mix thoroughly before use.

**APPLICATION:** Apply LESCOPEX to weeds when they are actively growing. Do not apply to dormant weeds. The weeds should be mowed prior to application. Water the turf after application for 24 hours after use.

For more information on LESCOPEX, contact your local LESCOPEX distributor.
