

LESCO 36-0-0 Fertilizer with Dursban*

CONTAINS DURSBAN*

Total Nitrogen 36.00%
Available Phosphoric Acid (P₂O₅) 0.00%
Soluble Potash (K₂O) 0.00%

For the control of soil insects such as ants, armyworms, cutworms, sod webworms, chinch bugs, earwigs, sowbugs, crickets and certain white grubs.

ACTIVE INGREDIENT:

Chlorpyrifos (0, 0-diethyl-0-(3,5,6-trichloro-2-pyridyl) phosphorothioate 2.32%

INERT INGREDIENTS: 97.68%
TOTAL: 100.00%

DURSBAN* - Registered Trademark of Dow Chemical Company
U.S. Patent No. 3,244,586

**KEEP OUT OF REACH OF CHILDREN
CAUTION**
Read all directions before using.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed. Avoid eye contact. Wash thoroughly after handling. Wash contaminated clothing before reuse. Flush contaminated eyes with plenty of water and get medical attention if irritation persists. Keep away from food, foodstuffs and domestic water supplies. Keep children and pets off of treated area until watered into soil and soil is dry.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Call a physician.

If on skin: Wash thoroughly with soap and water.

If in eyes: Flush eyes with plenty of water. If irritation persists, call a physician.

NOTE TO PHYSICIAN: Active ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Keep out of any body of water. Fish and crustaceans may be killed if their waters are contaminated with this product. Do not contaminate water by cleaning equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HOW TO USE

To control chinch bugs, sod webworms, ants, armyworms, crickets, cut worms, earwigs, and sowbugs, uniformly apply one (1) pound of this product to cover 1,000 square feet of non-crop turfgrass area. Treat when insects first appear; re-treat as needed. To help obtain uniform distribution, apply one-half the required amount of product in one direction; then apply balance at a right angle. Immediately after application, thoroughly water the treated turf to wash the insecticide into the zone of insect infestation.

To control certain white grubs (larvae of European chafer and Japanese beetle), apply one pound of this product per 1,000 square feet. Apply the granules uniformly over the area treated followed immediately by thorough watering to wash insecticide into turf. For best results, treat when grubs are young and actively feeding near soil surface, usually during late July and August. Consult your local Agricultural Extension Service specialist for proper time to treat in your area.

36-0-0 with DURSBAN* SPREADER SETTINGS

Cyclone	Once over	Twice over	Spread Width
1 lb./1,000 sq. ft.	3.75	3.25	7 feet
4 lbs./1,000 sq. ft.	5.50	4.50	7 feet

APPROXIMATE SPREADER SETTINGS

IMPORTANT: These settings are only approximate. Age and condition of spreader can cause wide variation. Be sure to calibrate your spreader with each application.

DISPOSAL DIRECTIONS

Do not reuse empty container. Wrap container and put in trash collection
