Subject: Label Amendment and Product Name Change
PCNB 12.5% Plus Fertilizer
EPA Reg. No. 10404-37
Your Submission Dated January 2, 2003

Dear Dr. Sieloff:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following comment:

1. Under Lawns and Turf, "For Dichondra" is underlined. We note that none of the other types of grass (warm season, Northern or cool season) is underlined, and that the only other text items that are underlined in this section are the names of the diseases controlled by this product. Although most people using this product would know Dichondra was a type of grass and not a disease, some might be confused. Therefore, for consistency, we recommend that you remove the underline from "For Dichondra."

EPA also acknowledges the change in the product's primary brand name to "PCNB 12.5% Plus Fertilizer." The name change is acceptable. A stamped copy of the label is enclosed for your records. Please submit one copy of the final printed labeling before the product is released for shipment.

Sincerely,

A handwritten signature in cursive script that reads "Mary L. Waller".

Mary L. Waller
Product Manager 21
Fungicide Branch
Registration Division (7505C)

Enclosure

If swallowed	<ul style="list-style-type: none"> Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If in eyes	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If inhaled	<ul style="list-style-type: none"> Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact Chem-Trec at 1-800-424-9300 for emergency medical treatment information.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed, inhaled, or absorbed through skin. Avoid breathing dust. This material may cause skin irritation. Avoid contact with eyes, skin, or clothing. Wear long-sleeved shirt while handling product. Wash hands and face after use and prior to eating, drinking, or smoking. Wash contaminated clothing before reuse. Do not handle or apply product with bare hands. Keep out of reach of children.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply directly adjacent to potable water supplies.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CHEMIGATION

Do not apply this product through any type of irrigation system.

LAWNS AND TURF

Brown Patch and Dollar Spot: For southern or warm season lawns such as St. Augustine, Bermuda, and similar grasses: Make one application in the fall or spring at first indication of infection. Apply 6 lbs. per 1,000 sq. ft. Following application, the treated areas should be lightly watered to insure movement through the grass to soil level. If the treated area is subjected to unusually heavy rainfall, or flooded, or if the disease is severe or reappears, the area should be retreated 3 to 4 weeks later.

For Dichondra: Treat as above, using 6 lbs. per 1,000 sq. ft. For Northern or cool season lawns such as Ryegrass, Fescue, Bluegrass, Bent, or similar grasses: apply 1.6 to 2.0 lbs. per 1,000 sq. ft. at first sign of disease. Repeat every 7 to 10 days during warm, damp weather. Water treated area lightly to wash chemical down to soil. Under certain growing conditions, a temporary discoloration of the grass occasionally may occur. This causes no harm and will disappear in a short time.

Helminthosporium Leaf Spot: Apply at rate of 4 to 6 lbs. per 1,000 sq. ft. Preventive applications should be made in Spring or Fall of each year. For control of existing infections, apply at the higher rate as soon as symptoms are first noted. Following applications, the treated area should be lightly watered to insure movement through the grass to soil level. If the treated area is subjected to unusually heavy rainfall or flooded, or if the disease is severe or reappears, the area should be retreated 3 to 4 weeks later.

Snow Mold (Typhula incarnata, Fusarium nivale): Apply at the rate of 4 to 6 lbs. per 1,000 sq. ft. using a granular lawn spreader or comparable equipment. Application should be made prior to first snowfall.

Do not graze treated areas or feed clippings to livestock.

PRECAUTION: For northern or cool season grasses, such as Ryegrass, Fescue, Bluegrass, Bent, or similar grass, application is NOT recommended when temperatures exceed 75 °F.
