10404-43 C, C E P T E D Label Amendment submitted to EPA 2 1997 JUL Under the Federal Insecticide, Fungicide, and Rodenticide Act. as amonded, for the pesticide registered under Three-Way Selective Herbicide FOR PROFESSIONAL TURF MAINTENANCE OPERATORS ONLY Directions for Use It is a violation of federal law to use this product in a manner inconsistent with its (Contains 0.22 Lbs, Dicamba, labeling. 1.30 Lbs. MCPP, and 2.44 Lbs. 2,4-D per gallon) PERSONAL PROTECTIVE EQUIPMENT (PPE) WPS USES: Applicators and other handlers who handle this pesticide for any KEEP FROM FREEZING use covered by the Worker Protection Standard (40 CFR § 173) - in general, agricultural-plant uses are covered - must wear: long-sleeved shirt and long ACTIVE INGREDIENTS: pants, chemical resistant gloves, shoes plus socks, protective eyewear, and a Dimethylamine Salt of 2,4-Dichlorophenoxyacetic Acid 30.56% ** Dimethylamine Salt of 2-(2-methyl-4-chiorophenoxy) dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C). For prepionic acid 16.34% exposures in enclosed areas, applicators and other handlers must wear a Dimethylamine Salt of Dicamba (3,6-dichloro-o-anisic acid) 2.77% respirator with either an organic vapor-removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C), or aa *AL 100.00% canister approved for pesticides (MSHA/NIOSH approval prefix TC-14G). * Equivalent to 2,4-dichlorophenoxyacetic acid 2.44 pounds per gallon or NON-WPS USES: Applicators and other handlers who handle this pesticide for 25,38% any use NOT covered by the Worker Protection Standard (40 CFR § 173) - in Equivalent to 2-(2-methyl-4-chlorophenoxy) propionic acid 1.30 pounds per general, only agricultural-plant uses are covered - must wear: long-sleeved shirt gallon or 13.50% and long pants, waterproof gloves, shoes plus socks, and protective eyewear. Equivalent to 3.6-dichloro-o-anisic acid 0.22 pounds per gallon or 2.30% *Isomer specific by AOAC method, 14 Ed. #6.321 Discard clothing and other accordent materials that have been drenched or E.P.A. Reg. No. 10404-43 heavily contaminated with this product's concentrate. DO NOT reuse them, E.P.A. Est. No. 10404-OH-02 Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE KEEP OUT OF REACH OF CHILDREN separately from other laundry. DANGER PELIGRO When handlers use closed systems, enclosed cabs or aircraft in a manner that meets the requirements of the Worker Protection Standard [40 CFR § 170.240 "PRECAUCION AL USUARIO: Si usted no lee ingles, no use este (d) (4-6)], the handler PPE requirements may be reduced or modified as producto hasta que la etiqueta haya sido explicado ampliamente" specified in the WPS. STATEMENT OF PRACTICAL TREATMENT If Swallowed: Call a physician or Polson Control Center immediately. **User Safety Requirements** Induce vomiting by giving victim 1 or 2 glasses of water and touching back Users should: of throat with finger. Do not induce vomiting or give anything by mouth to Wash hands before eating, drinking, chewing gum, using tobacco, or using unconscious or convulsing person. the toilet. Inhaled: Remove victim to fresh air and apply artificial respiration if Remove clothing immediately if pesticide gets inside. Then wash indicated. Get medical attention. thoroughly and put on clean clothing. If in Eyes: Flush eyes with plenty of water. Get medical attention immediately. If on Skin: Remove contaminated clothing and wash affected area with AGRICULTURAL USE REQUIREMENTS soap and water. Get medical attention if irritation persists. Use this product only in accordance with its labeling and with the Worker See side panel for additional precautionary statements. Protection Standard, 40 CFR § 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and It contains greenhouses, and handlers of agricultural pesticides. STORAGE AND DISPOSAL requirements for training, decontamination, notification, and emergency Do not contaminate water, food, or feed by storage or disposal. Storage: Store product in its original labeled container in a cool, dry, locked place, out assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about Personal Protective Equipment (PPE) of reach of children. Store away from seeds, feeds, fertilizers, insecticide, and and restricted-entry interval (REI). The requirements in this box apply fungicides. Keep from freezing. Pesticide Disposal: Pesticide wastes are toxic Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. only to uses of this product that are covered by the Worker Protection Standard. DO NOT enter or allow worker entry into treated areas fluring the restricted entry interval (REI) of 48 hours. ~ ~ Container Disposal: (Metal) Triple rinse (or equivalent). Then offer for recycling or reconditioning or, puncture and dispose of in a sanitary landfill or by other procedures PPE required for early entry to treated areas that is permitted under the approved by state and local authorities. (Plastic) Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralis, waterproof gloves, shoes plus socks, and protective eyewear." local authorities, by burning. If burned, stay out of smoke.

LESCO Three-Way Selective Herbicide

The area being treated must be vacated by un<u>protected</u> persons. _____ Do not enter treated areas without protective clothing until sprays have dried.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS DANGER: May be fatal if swallowed. Corrosive; causes eye damage and skin irritation. Do not get in eyes, on skin or clothing. When using this product (non-commercial users AND commercial

mixer/loader/applicators when applying on golf courses), wear longsleeved shirt, long pants, socks, shoes, rubber gloves, and eye protection. It is recommended that safety glasses include front, brow, and temple protection.

When using this product (commercial mixer/loader/applicators when applying to places other than golf courses): When mixing, loading or

blying this product, wear long-sleeved shirt, long pants, socks, shoes, ...emical-resistant gloves, and eye protection. It is recommended that safety glasses include front, brow, and temple protection. After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower. Avoid contamination of food-stuffs. Wash hands after use and before eating or smoking.

(Less than 5 Gallons): persons engaged in open pouring of this product must also wear coveralls or a chemical-resistant apron.

(Sizes 5 Gallons and Larger): A mechanical system (probe & pump) must be used for transferring the contents of this container. If the contents of a non-refillable pesticide container are emptied, the probe must be rinsed before removal.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and non-target plants. Do not apply directly to water, to areas where surface water is present or to intertidal areas below "a mean high water mark. Do not contaminate water when disposing of

ipment washwaters. Do not use on Bentgrass or St. Augustinegrass as injury may result. Do not use on Clover or Dichondra. Vapors from this product may injure susceptible plants in the immediate vicinity. Apply this product only as specified on this label.

<u>Groundwater contamination</u>: Most cases of groundwater contamination involving phenoxy herbicides, such as 2,4-D and MCPP, have been associated with mixing/loading and disposal sites. Caution should be exercised when handling pesticide at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination. CHEMIGATION: Do not apply this product through any type of irrigation system.

<u>Cleaning of Equipment</u>: When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources.

IMPORTANT: HOW TO USE THREE-WAY SELECTIVE HERBICIDE Avoid drift of spray (coarse sprays are less likely to drift) onto vegetables, flowers, ornamental shrubs, trees, and other desirable crop plants.

Do not contaminate domestic or irrigation waters.

Do not pour solution used to clean sprayer near desirable plants or where it may contaminate water.

Do not use on centipedegrass, St. Augustinegrass, or Dichondra, nor on lawns or turf where desirable bentgrass or clovers are present. Newly seeded lawns may be treated after they have been mowed the second time. To re-seed small areas in treated lawns, wait at least 3 weeks after spraying. A good rain or deep watering should occur during this period. Do not apply to areas underlaid by roots of desirable trees and shrubs.

General Information

| A Partial List of Weeds Controlled | | | | | |
|------------------------------------|------------|--------------|--------------|---------------------|----------------|
| Black Medic | Clovers | | Moming Glory | Poison Oak | Spotted Spurge |
| Buckthorn | Dandelion | Knotweed | Peppergrass | Purslane | Wild Carrot |

| Chickweed | Heal-All | Mallow | Poison Ivy | Shepherd's Purse | Wild Onion |
| | | | | Snoodwall | Varrow |

and many other broadleaf weeds in lawns and turf.

Where to Use and How to Apply

Use Three-Way Selective Herbicide on lawns, omamental and recreational turf (not pastures) and golf courses (fairways, aprons, tees and rough) at the rate of 1.2 to 1.5 fluid ounces per 1,000 sq. ft. (3 1/4 to 4 pints per acre) in sufficient water (1 to 5 gallons per 1,000 sq. ft.) to insure adequate coverage.

Apply as a foliar spray when weeds are young and actively growing. It may be necessary to make a second application (spring and fall) to kill certain hard-to-kill weeds such as poison ivy, poison oak, and English daisy. Weeds that start growing in the fall, such as henbit and chickweed, may be controlled more effectively with a fall application. Where advisable, for best spray coverage, LESCO spreader sticker may be added to the spray solution as directed.

This rate, which provides 1.22 pounds of 2,4-D acid equivalent per acre per application per site, is the maximum legal application rate for turf. The maximum number of broadcast applications per treatment site is 2 per year. Three-Way is not recommended for closely mowed Bentgrass such as golf and bowding greens.

WARRANTY

Manufacturer warrants that this herbicide conforms to the chemical description on its label. When used in accordance with label directions under normal conditions, this herbicide is reasonably fit for its intended purposes. Since timing, method of application, weather, plant and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.
