Application for Pesticide - Section I

1. Company/Product Number 10404-45	2. EPA Product Manager Deborah McCall	3. Proposed Classification <input checked="" type="checkbox"/> None <input type="checkbox"/> Restricted
4. Company/Product (Name) LESCO 24-4-12 Fertilizer with 1.5% Oftanol	PM#	
5. Name and Address of Applicant (Include ZIP Code) LESCO, Inc. 15885 Sprague Rd. Strongsville, Ohio 44136-1799 <input type="checkbox"/> Check if this is a new address	6. Expedited Review. In accordance with FIFRA Section 3(c)(3)(b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No. _____ Product Name _____	

Section - II

<input type="checkbox"/> Amendment - Explain below.	<input type="checkbox"/> Final printed labels in response to Agency letter dated _____	NOTIFICATION SEP 7 - 2001
<input type="checkbox"/> Resubmission in response to Agency letter dated _____	<input type="checkbox"/> "Me Too" Application.	
<input checked="" type="checkbox"/> Notification - Explain below.	<input type="checkbox"/> Other - Explain below.	

Explanation: Use additional page(s) if necessary. (For section I and Section II.)
 Notification of Combination of Redundant Labeling Statements per PR Notice 98-10.
 This notification is consistent with the provision of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statements to EPA. I understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under Section 12 and 14 of FIFRA.

Section - III

1. Material This Product Will Be Packaged In:				2. Type of Container	
Child-Resistant Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Unit Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Water Soluble Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No			<input type="checkbox"/> Metal <input type="checkbox"/> Plastic <input type="checkbox"/> Glass <input type="checkbox"/> Paper <input type="checkbox"/> Other (Specify) _____
* Certification must be submitted		If "Yes" Unit Packaging wgt. No. per container	If "Yes" Package wgt. No. per container		
3. Location of Net Contents Information <input type="checkbox"/> Label <input type="checkbox"/> Container		4. Size(s) Retail Container		5. Location of Label Directions <input type="checkbox"/>	
6. Manner in Which Label is Affixed to Product <input type="checkbox"/> Lithograph <input type="checkbox"/> Paper glued <input type="checkbox"/> Stenciled			<input type="checkbox"/> Other _____		

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)		
Name Bernadine Javorek	Title Manager, Regulatory Affairs	Telephone No. (Include Area Code) 440-783-9250
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.		6. Date Application Received (Stamp)
2. Signature <i>Bernadine Javorek</i>	3. Title Manager, Regulatory Affairs	
4. Typed Name Bernadine Javorek	5. Date 8/29/01

CAUTION**

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. May cause eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Wash contaminated clothing with soap and hot water before reuse. Keep out of reach of children.

STATEMENTS OF PRACTICAL TREATMENT

If in Eyes: Flush with plenty of water. Get medical attention if irritation persists.
If on Skin: Wash with soap and water. If Swallowed: Call a physician or Poison Control Center. Give 1 to 2 glasses of water and induce vomiting by touching finger to back of throat. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person. Get medical attention.
If Inhaled: Remove to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

Physician Information: This product is a cholinesterase inhibitor. Atropine and 2-PAM have been shown to be effective.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is recommended for use only by commercial applicators on commercial and residential turf including golf courses, cemeteries, industrial grounds, parkways, and residential lawns. Do not apply more than 1.45 ounces active ingredient per 1,000 sq. ft. per year. Do not use on turf mowed at less than 3/8".

APPLICATION EQUIPMENT: Apply uniformly over the turf area with suitable granular turf application equipment. Both drop-type and rotary-type spreaders may be used. Avoid the use of spreaders which would apply granular herbicides and insecticides to turf. Calibrate application equipment prior to use according to the manufacturers directions. Check frequently to be sure equipment is working properly and distributing granules uniformly.

STORAGE AND DISPOSAL

Pesticide Disposal: Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA regional office for guidance.

Container Disposal: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed, by burning, stay out of smoke.

APPLICATION TECHNIQUES: Application using a pull-type spreader can be aided by a splash board mounted under the hopper for more uniform granule distribution. Application using a tractor mounted or pull-type rotary applicator can be aided by using a seed application ring and a lime shield for more uniform granule distribution. A more uniform application can be made by spreading half the required amount over the area and then immediately apply the remaining half at right angles or crosswise. The full recommended rate must be used for maximum benefit.

Rev. 8/28/01 WPB

Phyllophaga spp., such as Green June Beetle, Oriental beetle, Asiatic garden beetle)

Active Oftanol per acre

equivalent amount of 1.45 ounces active ingredient per 1,000 sq. ft. regardless of formulation used. Minimum interval between Applications must be 30 days.

Billbug (larval stage)

For White Grub and Billbug Larval Control: Water turf area thoroughly immediately after application using sufficient water to wet sod 1 to 1.5" deep.

Hyperodes weevil (larval stage)

For Hyperodes Weevil Control: Apply between full bloom periods of forsythia and flowering dogwood, usually April 15 to May 15, and water in as for white grub larval control.

Mole Cricket

For Mole Cricket Control: Water immediately after application using 0.5 to 1" of water. Consult your local turf, state agricultural experiment station, or state extension service specialists for more information regarding timing of application.

Surface Insects:	Rate	Application
Sod webworm Larvae,	1.5 or 3 lb./1000 sq. ft.	Apply 1/2 to 1 inch of water immediately after treatment. Re-apply as necessary for pest re-infestation. Do not apply more than 6 lb. per 1,000 sq. ft. per year or an equivalent amount of 1.45 ounces active ingredient per 1,000 sq. ft. regardless of formulation used. Minimum interval between Applications is 15 days for 1.5 rate and 30 days for the 3 lb. rate. Consult your local turf, State agricultural experiment station, or state extension specialists for specific information regarding timing of application.
Chinch bugs	66 lb./A* OR 1.5 lb per 1,000 sq. ft.	
	*Equivalent to 1 lb. of Active OFTANOL per acre.	
	For 3 lbs/1,000 sq. ft. Same as SOIL INSECT DOSAGE Above.	

When applying, use appropriate marking systems and make application when the wind is calm to prevent missed areas and water after application.

Approximate LESCO Rotary Spreader Settings:

#Product/1,000 sq. ft.	#A/A	Effective Spreading Width	Third Hole	LESCO® Calibration Gauge #43
3	2	9'	1	

***IMPORTANT:** These settings are only approximate. Age, condition of spreader, and operator speed can cause wide variation. Be sure to calibrate your spreader with each application.

RESTRICTIONS: Upon completion of the application, this material shall be watered in by the applicator with sufficient water to moisten the soil to a depth of 1 inch or the applicator shall instruct the owner of the property to water in with sufficient water to moisten the soil to a depth of 1 inch immediately after application. Keep children and pets off the treated area until watering in has been completed and foliage has dried. Do not collect clippings from treated areas for feed or forage. Do not allow material to come in contact with bare skin.

WARRANTY

LESCO, Inc. warrants that this insecticide conforms to the chemical description on its label. When used in accordance with label directions under normal conditions, this insecticide is reasonably fit for its intended purposes. Since timing, method of application, weather, plant and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.
