Application for Pesticide - Section I

1. Company/Product Number 10404-56	2. EPA Product Manager Deborah McCall	3. Proposed Classification <input checked="" type="checkbox"/> None <input type="checkbox"/> Restricted
4. Company/Product (Name) LESCO Turf Fertilizer with 1.15% Team	PM#	
5. Name and Address of Applicant (Include ZIP Code) LESCO, Inc. 15885 Sprague Rd. Strongsville, Ohio 44136-1799 <input type="checkbox"/> Check if this is a new address	6. Expedited Review. In accordance with FIFRA Section 3(c)(3)(b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No. _____ Product Name _____	

Section - II

<input type="checkbox"/> Amendment - Explain below.	<input type="checkbox"/> Final printed labels in response to Agency letter dated _____	<b>NOTIFICATION</b>  SEP 7 2001
<input type="checkbox"/> Resubmission in response to Agency letter dated _____	<input type="checkbox"/> "Me Too" Application.	
<input checked="" type="checkbox"/> Notification - Explain below.	<input type="checkbox"/> Other - Explain below.	

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

Notification of Combination of Redundant Labeling Statements per PR Notice 98-10. This notification is consistent with the provision of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statements to EPA. I understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under Section 12 and 14 of FIFRA.

Section - III

1. Material This Product Will Be Packaged In:				2. Type of Container	
Child-Resistant Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Unit Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Water Soluble Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No			<input type="checkbox"/> Metal <input type="checkbox"/> Plastic <input type="checkbox"/> Glass <input type="checkbox"/> Paper <input type="checkbox"/> Other (Specify) _____
* Certification must be submitted		If "Yes" Unit Packaging wgt.	No. per container	If "Yes" Package wgt	No. per container
3. Location of Net Contents Information <input type="checkbox"/> Label <input type="checkbox"/> Container		4. Size(s) Retail Container		5. Location of Label Directions <input type="checkbox"/>	
6. Manner in Which Label is Affixed to Product <input type="checkbox"/> Lithograph <input type="checkbox"/> Paper glued <input type="checkbox"/> Stenciled			<input type="checkbox"/> Other _____		

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)		
Name Bernadine Javorek	Title Manager, Regulatory Affairs	Telephone No. (Include Area Code) 440-783-9250
<b>Certification</b> I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.		6. Date Application Received (Stamper!)
2. Signature 	3. Title Manager, Regulatory Affairs	
4. Typed Name Bernadine Javorek	5. Date 8/29/01

## Turf Fertilizer with 1.15% Team<sup>TM</sup>

2/2  
TM

**NOT FOR USE** on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

A granular fertilizer plus selective preemergence herbicide for the control of crabgrass and most other annual weed grasses in established: Bluegrass (Perennial), Fescue, Bermudagrass, Centipedegrass, Bentgrass Fairways, Ryegrass (Perennial), Bahiagrass, St. Augustinegrass, and Zoysiagrass.

**Active Ingredients:**

Benifin: N-butyl-N-ethyl-a,a,a-trifluoro-2,6-dinitro-p-toluidine.....	0.77%
Trifluralin: a,a,a-trifluoro-2,6-dinitro-N,N-dipropyl-p-toluidine.....	0.38%
Inert Ingredients:.....	98.85%
Total.....	100.00%

Contains 0.575 pounds active ingredient per 50 pound bag.

**GUARANTEED ANALYSIS**

Total Nitrogen.....	xx.xx%
xx.xx% Ammoniacal Nitrogen	
xx.xx% Urea Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ).....	xx.xx%
Soluble Potash (K <sub>2</sub> O).....	xx.xx%
DERIVED FROM: Urea, Ammonium Phosphate, Muriate of Potash.	
Chlorine (Cl) Max.....	xx.xx%
F 1406.....	Made in U.S.A.

Wash or brush off walks and painted surfaces following application to avoid discoloration.

**KEEP OUT OF REACH OF CHILDREN  
WARNING**

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMAN AND DOMESTIC ANIMALS**

**WARNING:** Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear goggles, face shield, or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Avoid breathing dust and contact with skin. Harmful if swallowed, inhaled, or absorbed through the skin.

**STATEMENT OF PRACTICAL TREATMENT**

**If in eyes:** Call a physician or Poison Control Center. Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes.

**b. Southern (warm season) turfgrasses**

For preemergence control, apply 174 to 261 pounds (2 to 3 pounds active ingredient) per acre in the late winter or early spring one to two weeks prior to the onset of conditions favorable for annual weed grass seed germination.

In areas of the United States where germination of the annual weed grass seed species continues for extended periods of time, a second application at the recommended rate may be made 8 to 10 weeks after initial treatment for continued control.

**2. Late spring, early summer germinating annual grasses - goosegrass**

Although classified as a summer annual grass, goosegrass normally germinates 4 to 6 weeks later than crabgrass, foxtails, and other summer annual grass species. Applications should, therefore, be timed accordingly.

**a. Northern (cool season) turfgrasses**

For preemergence control, apply 174 pounds (2 pounds active ingredient) per acre in the late spring or early summer one to two weeks prior to the expected germination of goosegrass.

**b. Southern (warm season) turfgrasses**

For preemergence control, apply 174 to 261 pounds (2 to 3 pounds active ingredient) per acre in the late spring or early summer one to two weeks prior to the expected germination of goosegrass.

**3. Northern and Southern Turfgrasses**

In areas of the U.S. where preemergence control of both early annual grasses (crabgrass, foxtails, and barnyardgrass) and later germinating goosegrass is desired, two applications at the recommended rate spaced 8 to 10 weeks apart may be made to provide full season control of these annual grass species.

**4. Poa annua (annual bluegrass)**

In areas of heavy infestation of annual bluegrass, its elimination will temporarily result in thin turfgrass areas. Proper fertilization, irrigation and soil incorporated reseeding will encourage existing desirable turfgrasses and newly planted seeding turfgrasses to fill in these thin areas previously occupied by annual bluegrass.

**a. Northern (cool season) turfgrasses**

For preemergence control, apply 174 pounds (2 pounds active ingredient) per acre in the late summer or early fall and again in late winter or spring one to two weeks prior to the expected germination of annual bluegrass.

**b. Southern (warm season) turfgrasses**

For preemergence control, apply 261 pounds (3 pounds active ingredient) per acre in the late summer or early fall one to two weeks prior to the expected germination of annual bluegrass. In southern areas of the U.S. where germination of annual bluegrass continues for extended periods of time, a second application at 174-261 pounds per acre can be made 10 to 12 weeks after the initial treatment.

For application to smaller areas, apply the following amounts:

**APPROXIMATE ROTARY SPREADER SETTINGS for LESCO Rotary Spreader\***

Pounds Product 1,000 sq ft	Pounds Product 1 Acre	#/Acre	Approximate Setting
3.0	131	1.5	G (18/32")
4.0	174	2.0	G 1/4 (17/32")
6.0	261	3.0	H 1/2 (19/32")

\*IMPORTANT: These settings are only approximate. Age, condition of spreader, and operator speed can cause wide variation. Be sure to calibrate your spreader with each application.

**Reseeding:** Chemicals that effectively control annual weed seeds may also affect new desirable turfgrass seedlings. Reseeding should be delayed for at least 6 weeks after applying. When reseeding, it is essential that proper cultural practices such as soil cultivation, irrigation, and fertilization be followed. For satisfactory reseeding results after using product, the amount of seed used should be increased and equipment designed to place seed in contact with the soil should be employed. When using at the highest recommended rate,
