## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

OCT 30 1990

H.R. McLane  
7210 Red Road  
Suite 212  
Miami, FL 33143

Dear Mr. McLane:

Subject: LESCO TFC DISPERSIBLE GRANULE TURF HERBICIDE  
EPA Reg. No. 10404-59  
Re: Amendments  
Your application dated August 29, 1990

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to comments listed below. A stamped copy is enclosed for your records. Please submit five (5) of your final printed labels before distributing your product.

1. "Environmental Hazard" statement must be revised to read "Do not contaminate water when disposing of equipment washwaters". Delete old statement, "Do not contaminate water by cleaning of equipment or when disposing of equipment washwaters".
2. The "Storage and Disposal" block must be placed in the "Directions for Use" section. It should be placed immediately before specific directions for use or at the end of "Directions for use".

Sincerely,

Robert J. Taylor  
Product Manager (25)  
Fungicide-Herbicide Branch  
Registration Division (H7505C)

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION: MAY IRRITATE EYES, NOSE, THROAT, AND SKIN.** Avoid breathing dust or spray mist. Avoid contact with skin, eyes, and clothing. In case of contact with eyes immediately flush with plenty of water. Get medical attention if irritation persists. Wash thoroughly after handling. Remove and wash contaminated clothing before reuse.

### ENVIRONMENTAL HAZARDS

Do not apply directly to any body of water. Do not contaminate water by cleaning of equipment or when disposing of equipment washwaters.

### IMPORTANT

Do not use on food or feed crops. Injury to or loss of desirable trees or other plants may result from failure to observe the following: Do not apply (except as recommended), or drain or flush equipment on or near desirable trees or other plants, or on areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots. Do not apply where runoff water may flow onto agricultural land as injury to crops may result. Do not contaminate any body of water, including irrigation water. Do not use on walks, driveways, tennis courts, or similar areas. Prevent drift of spray to cropland and other desirable plants. Do not use on dichondra lawns or where violets or ryegrass are the desired species. Keep from contact with fertilizers, insecticides, fungicides and seeds. Following application, the spray tank should not be used for other than non-crop application. This is extremely important, as low rates of LESCO TFC can kill or severely injure most crops. See SPRAYER CLEANUP section.

### GENERAL INFORMATION

LESCO TFC Herbicide is a dispersible granule to be mixed in water and applied as a spot or broadcast spray treatment to certain species of established grasses. It is noncorrosive, nonflammable, nonvolatile and does not freeze. LESCO TFC rapidly inhibits growth of susceptible weeds. However, typical symptoms (discoloration) of dying weeds may not be noticeable for 1 to 3 weeks after application depending on growing conditions and weed susceptibility. Warm moist conditions following treatment promote the activity of LESCO TFC while cold, dry conditions delay the activity of LESCO TFC. Weeds hardened off by cold weather or drought stress may not be fully controlled. Degree of control and duration of effect depend on: a) rate used; b) weed spectrum; c) weed size; d) growing conditions at and following time of treatment; e) soil pH; f) precipitation, and g) soil organic matter content.

**NOTE TO BUYER:** Purchase of this material does not confer any rights under patents of countries outside of the United States.

## STORAGE AND DISPOSAL

**STORAGE:** Store product in original container only, away from other pesticides, fertilizer, food or feed. Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Completely empty bag into application equipment. Then dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning, if burned stay out of smoke.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

LESCO TFC Herbicide should be used only in accordance with the recommendations of this label. The manufacturer will not be responsible for losses or damages resulting from the use of this product in any manner not specifically recommended. User assumes all risks associated with such non-recommended use.

LESCO TFC Herbicide is to be applied as a postemergence treatment with a hand held or a boom sprayer to control perennial "bunch or clump" grasses such as tall fescue or ryegrass and many other weeds in actively growing established Kentucky Bluegrass, Fine Fescue, Bentgrass (when mowed over 1/2 inch in height), Bahiagrass, and Bermudagrass lawns. For best results, apply LESCO TFC when the desirable turf is not under any stress (i.e., salt, drought). Do not apply to desirable Ryegrass turf. Adequate moisture by rainfall or irrigation is needed to activate the herbicide. Do not apply to soil saturated with moisture or during periods of intense heat.

Use a non-ionic surfactant such as LESCO Spreader Sticker at a rate of 1/4 to 1/3 oz. per gallon of spray solution.

### Chemigation

Do not apply this product through any type of irrigation system.

# LESCO TFC

## DISPERSIBLE GRANULE TURF HERBICIDE

## FOR SELECTIVE CONTROL OF TALL FESCUE AND OTHER WEEDS IN ESTABLISHED KENTUCKY BLUEGRASS, FINE FESCUE, BENTGRASS, BAHIAGRASS, AND BERMUDAGRASS TURF

NET WEIGHT UNITS - 2.5 GRAMS per BLISTER-PAK

### ACTIVE INGREDIENT:

Chlorsulfuron: 2-Chloro-N-[(4-methoxy-6-methyl-1,3,5-triazin-2-yl)aminocarbonyl] benzenesulfonamide

75%

### INERT INGREDIENTS:

25%

Total 100%

### RATES

LESCO TFC is to be applied as a spot or broadcast spray. When application may result in temporary suppress desirable grass growth and

### SELECT

Rate selection is based on weed established plants and on the fine textured soils. For low volume or controlled application rates per acre. A repeat application of LESCO TFC at a rate of 1.0 to 5.0 blisters per 1000 sq. ft. (2.5 grams) to cover 725 to 800 sq. ft. on soils with pH of 7.0 and above.

### Weeds Controlled

Common Chickweed	Shepherd's Purse
Henbit	Field Pennycress
Pinappleweed	Annual Ryegrass

### Weeds Controlled at 1 to 2

Purple Loosestrife	Common Speedwell
Flare	Dandelion
Wild carrot	Goldenrod

### Weeds Controlled at 2 to 2.5

Canada Thistle	Common Mistle
Common Cineraria	Common Yarrow
Common Mallow	Burdock
	Horsetail

### Weeds Controlled at 2.75 to 3.0

Tall Fescue	Broadleaf Plantain
Wild Violet	Ragweed

⑥ To increase activity and spectrum of action with 2,4-D, MCPP, DICAMBA, MCPA or Follow all label precautions for use on Spreader Sticker at a rate of 1/4 to 1/3 oz. per gallon of spray solution. ⑦ A second application 60 days after first application.

**SPRAY PREPARATION** - Add LESCO TFC to the water in the spray tank and dispense the water dispersible granules. spray within 72 hours if the tank pH is below 7.0. Avoid application in low pH conditions.

### APPLICATION

Apply LESCO TFC with a sprayer until the weeds are covered. Do not spray to prevent drift. **SPRAY VOLUME:** For hand held or boom sprayer 2 to 3 gallons per 1,000 sq. ft. (e.g. fescue clumps). For larger tank and boom sprayer 10 to 20 gallons per acre. LESCO TFC in a minimum of 20 gallons per acre and above. **AGITATION** - Thoroughly mix and agitate the spray solution to prevent excessive foaming.

### SPRAYER

LESCO TFC is a very active compound and will kill weeds and grasses. Fill tank half full of water and add 1 to 2 gallons of water. Fill tank and circulate for 15 min. Clean nozzles and screens separately. ornamental plants after use with TFC.

LESCO, INC. warrants that this herbicide used in accordance with label directions for its intended purposes. Since timing, moisture with other chemicals, and other control, no warranty is given concerning under conditions which are abnormal or of any such use. Amdmt. Version dated
