Three-Way 53% DG

Selective Broadleaf Herbicide

Only for Use by Professional Turf Maintenance Personnel, Landscape, or Commercial Applicators
This product is NOT to be used on sod farms.

A water dispersible granule formulation for broadleaf weed control in ornamental and recreational lawn and turfgrass

ACTIVE INGREDIENTS:

2,4-Dichlorophenoxyacetic Acid*	33.50%
2-(2-methyl-4-chlorophenoxy) Propionic Acid	16.90%
Dicamba (3,6-dichloro-o-anisic) Acid	2.40%
Related Compounds	0.60%
INERT INGREDIENTS	46.60%
TOTAL	100.00%

*Isomers Specific by AOAC 16321

KEEP OUT OF REACH OF CHILDREN DANGER PELIGRO

"PRECAUCION AL USUARIO: Si usted no lee ingles, no use este producto hasta que la etiqueta haya sido explicado ampliamente"

STATEMENTS OF PRACTICAL TREATMENT

If in eyes, flush with plenty of water for at least 15 minutes. Get medical attention if irritation persists. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person. Call a physician or Poison Control Center. If on skin, wash with plenty of soap and water.

If inhaled, remove victim to fresh air and supply artificial respiration if indicated.

See Side Panel for Additional Precautionary Statements

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system.

RE-ENTRY STATEMENT

Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment areas until spray has dried or dust has settled.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store product in its original labeled container in a cool, dry, locked place out of reach of children. Store in a separate area for herbicides away from seeds, feeds, fertilizers, insecticides and fungicides.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate, is a violation of Federal law and may contaminate groundwater. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

HOW TO USE

Best results are obtained from LESCO Three-Way 53% DG Herbicide when used on weeds that are young and actively growing. The lower rate will control susceptible annual weeds. Use the higher rate for perennial weeds or under conditions where weed kill is difficult (See How to Apply). A repeat application may be necessary for some weeds that are hard to kill.

NOTIFICATION
LABEL NOT REVIEWED
PER PR NOTICE 80-4

DATE: 8/3/93

WEEDS CONTROLLED

Bedstraw	Docks	Oxalis	Smartweed
Black medic	Ground Ivy	Peppergoose	Speedwell
Buckhorn	Heel-all	Pigweed	Velvetleaf
Burdock	Henbit	Plantains	Wild Carrot
Carpetweed	Knockweed	Purslane	Wild Garlic
Chicory	Lambsquarters	Ragweed	Wild Onion
Clover	Laspada	Red Sorrel	Yarrow
Chickweed	Mallow	Sheep Sorrel	Yellow Rocket
Dandelion	Morning-glory, annual	Shepherd's Purse	(and many more broadleaf weeds)

HOW TO MIX

Fill spray tank with half the required amount of water, then add the recommended amount of LESCO Three-Way 53% DG Herbicide and continue filling spray tank with the balance of water. Keep agitator running when filling the spray tank and during spray operations. LESCO Three-Way 53% DG Herbicide may be tank mixed with other pesticides labeled for use on ornamental lawns and turf. Follow all use directions on the label for any such pesticide. Add LESCO Three-Way to the tank first, mix thoroughly, and then add other components.

HOW TO APPLY

Apply LESCO Three-Way 53% DG Herbicide at the rate of 3 to 4 lbs. in 20 to 240 gallons of water per acre (equal to 1.1 to 1.5 oz. product/1,000 sq ft). Maximum kill of weeds will be obtained from spring or early fall application when weeds are actively growing. *Avoid applying during long, excessively dry or hot periods unless adequate irrigation is available. Do not apply to newly seeded turf until after the second or third mowing. Grass seed can be safely sown at recommended rates 3 to 4 weeks after application. This rate, which provides 1-1/3 pounds of 2,4-D acid equivalent per acre per application per site, is the maximum legal application rate for turf. Do not use on Dichondra, Bentgrass, Centipedegrass, Carpetgrass, or St. Augustinegrass unless varying degrees of foliage injury can be tolerated. Use enough spray volume for uniform coverage by ground application. The amount of water required for low volume applications may vary from 20 to 50 gallons of spray per acre. For high volume applications 25 to 240 gallons per acre, or more, of spray may be necessary for good coverage. The maximum number of broadcast applications per treatment site is 2 per year.

USE AND SPRAY PRECAUTIONS

Don't overdose. Do not apply when temperatures exceed 90° F and humidity is high. Avoid spray drift to cotton, soybeans, tomatoes, tobacco, grapes, fruit trees, flower or vegetable garden crops, ornamental plants, shrubs, trees, and other hormone herbicide sensitive, desirable plants. Do not apply when wind speed is sufficient to cause unacceptable drift. Use coarse sprays and lower nozzle pressure to aid in avoiding spray drift. Do not use nozzles which produce fine spray droplets under high pressure. The use of thickening agents or anti-drift additives and drift-reducing equipment is of value in preventing spray drift. Care should be taken not to make applications where runoff could carry the chemical to non-target areas. Local spray conditions will vary. Check local recommendations before applying.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER: Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Corrosive. Causes irreversible eye damage. When using this product, wear long-sleeved shirt, long pants, socks, shoes, chemical resistant gloves and eye protection (face shield, goggles, or safety glasses). It is recommended that safety glasses include front, brow, and temple protection. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

Drift or runoff may adversely affect nontarget plants. Do not apply directly to water, to areas where surface water is present, or to wetland areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. When cleaning equipment, do not put the washwater on the ground; spray or drain over a large area away from wells and water sources. Groundwater contamination: Most cases of groundwater contamination involving 2,4-D or MCPP herbicides have been associated with mixing/loading and disposal sites. Caution should be exercised when handling pesticide at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination. Apply this product only as specified on this label.

WARRANTY

LESCO, Inc. warrants that this herbicide conforms to the chemical description on its label. When used in accordance with label directions under normal conditions, this herbicide is reasonably effective for its intended purposes. Since timing, method of application, weather, and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all liability for any such use.
