ROCKY RIVER, OH 44116

Subject: Label Amendment Submission of 09/08/93 in Response to PR Notice 93-7  
EPA Reg. No. 10404-70  
ELIMINATE 47% DG SELECTIVE BROADLEAF HERBICIDE

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is accepted subject to the comments reflected on the enclosed sheet. A copy of your proposed labeling stamped "ACCEPTED WITH COMMENTS" is enclosed.

**WHAT THIS ACCEPTANCE MEANS:**

Based on your certification, the Agency has accepted the labeling changes that are necessary to comply with the Worker Protection Standard (WPS) labeling requirements of 40 CFR part 156, subpart K, described in PR Notices 93-7 and 93-11. Any other labeling changes submitted in connection with this amendment application but not directly related to compliance with the WPS have not been reviewed or accepted by the Agency. If you wish to make such changes, you must submit a separate amendment application proposing them. If your product is currently suspended, the acceptance of this labeling amendment does not affect the suspension in any way.

**WHAT YOU NEED TO DO NEXT:**

By the next label printing make all the specified changes to your labeling. Send to EPA one (1) copy of the final printed labeling:

- BEFORE selling or distributing any product bearing the final printed labeling
- AND
- WITHIN one year from date of this acceptance.

Recycled/Recyclable  
Printed with Soy/Canola Ink on paper that  
contains at least 50% recycled fiber

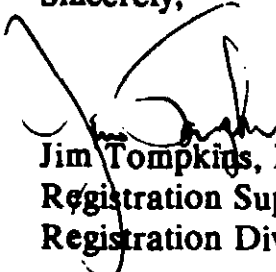

Submit the final printed labeling via the U.S. Postal Service to:

Document Processing Desk (FIN-LABEL)  
Office of Pesticide Programs (7505C)  
U.S. Environmental Protection Agency  
401 M Street, SW  
Washington, D.C. 20460-0001

Hand or courier deliveries of final printed labeling may be made to:

Document Processing Desk (FIN-LABEL)  
Office of Pesticide Programs  
Room 266A, Crystal Mall 2  
1921 Jefferson Davis Highway  
Arlington, VA 22202

Sincerely,

Jim Tompkins, Deputy Chief  
Registration Support Branch  
Registration Division (7505W)

Subject: Label Amendment Submission of 09/08/93  
in Compliance with the PR Notice 93-7  
EPA Reg Nr. 10404-70  
ELIMINATE 47% DG SELECTIVE BROADLEAF HERBICIDE.

Amend the statement under the exclusionary statement, "A water dispersible granule formulation for Broadleaf Weed Control" to read:

"A water dispersible granule formulation for Broadleaf Weed Control on ornamental lawns and turf."

It is not appropriate for a label to only refer to the use sites in the tank mix statement.

# LESCO

## Eliminate 47% DG Selective Broadleaf Herbicide

4044

ACCEPTED  
with COMMENTS  
in EPA Letter Dated

MAR 14 1994

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.  
10404-70

NOT FOR USE on turf being grown for  
or for commercial seed production.

A water dispersible granule formulation for Broadleaf Weed Control

### ACTIVE INGREDIENTS:

2-methyl-4-chlorophenoxyacetic acid	31.50%
2-(2-methyl-4-chlorophenoxy) propanoic acid	12.70%
Dicamba (3,6-dichloro-o-anisate) acid	2.84%
Related Compounds	0.86%
INERT INGREDIENTS	52.50%
TOTAL	100.00%

EPA Reg. No. 10404-70

EPA Est. No. (O) 62171-MS-1; (M) 11773-IA-1 - Refer to first letter of lot number for packaging location.

### KEEP OUT OF REACH OF CHILDREN DANGER

\*PRECAUCION AL USUARIO: Si usted no lee ingles, no use este producto hasta que la etiqueta haya sido explicado ampliamente.

#### STATEMENTS OF PRACTICAL TREATMENT

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person. Call a physician or Poison Control Center.

If in eyes, flush with plenty of water for at least 15 minutes. Call a physician. If on skin, wash with soap and water. If inhaled, remove victim to fresh air and apply artificial respiration, if indicated.

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye damage. Harmful or fatal if swallowed. Harmful if inhaled or absorbed through the skin. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

##### ENVIRONMENTAL HAZARDS

Drift or runoff may adversely affect non-target plants. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and water sources.

Groundwater contamination - Most cases of groundwater contamination involving MCPA or MCPP herbicides have been associated with mixing/loading and disposal sites. Caution should be exercised when handling pesticide at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination. Apply this product only as specified on this label.

##### RE-ENTRY STATEMENT

Do not re-enter or permit others to re-enter treated areas until spray has dried.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CAUTION: Do not apply this product through any type of irrigation system.

#### HOW TO USE

Best results are obtained from LESCO Eliminate 47% DG Herbicide when used on weeds that are young and actively growing. Applications of lower rates will control susceptible annual weeds but use higher rates for control of perennial weeds or under conditions where weed kill is difficult. Repeat application may be necessary for some weeds that are hard to kill.

#### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store product in its original labeled container in a cool, dry, locked place out of reach of children. Store in a separate area for herbicides away from seeds, feeds, fertilizers, insecticides, and fungicides.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate, is a violation of Federal law and may contaminate groundwater. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of bag in a sanitary landfill or by incineration or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

#### WEEDS CONTROLLED

Buckhorn	Crab	Crab	Smartweed
Black Medick	Ground Ivy	Peppercorn	Speedwell
Buckhorn	Heart-All	Pigweed	Volunteer
Burnick	Henbit	Plantain	Wild Carrot
Carpetweed	Kniveseed	Puncture	Wild Garlic
Chicory	Lambquarters	Ragweed	Wild Onion
Clover	Lambweed	Red Barn	Yarrow
Chickweed	Mallow	Sheep Sorrel	Yellow Plecter
Dandelion	Morning-glory	Shepherd's Purse	

and many more broadleaf weeds

#### HOW TO MIX

Fill spray tank with half the required amount of water, then add the recommended amount of LESCO Eliminate 47% DG Herbicide and continue filling spray tank with the balance of water. Keep agitator running when filling the spray tank and during spray operations.

LESCO Eliminate 47% DG Herbicide may be tank mixed with other pesticides labeled for use on ornamental lawns and turf. Follow all use and compatibility directions on the label for any such pesticide. Add LESCO Eliminate 47% to the tank first, mix thoroughly, then add the other compounds as directed.

#### HOW TO APPLY

Apply LESCO Eliminate 47% DG Herbicide at the rate of 3 to 4 lbs. in 20 to 240 gallons of water/acre (1.1 to 1.8 oz./1,000 sq.ft.) Maximum kill of weeds will be obtained from spring or early fall application when weeds are actively growing. Avoid applying during long, excessively dry or hot periods unless adequate irrigation is available. Do not apply to newly seeded turf until after the second or third mowing. Grass seed can be safely sown at recommended rates, 3 to 4 weeks after application of this product.

Do not use on Dichondra, Bentgrass, Centipedegrass, Carpetgrass or St. Augustinegrass unless varying degrees of foliage injury can be tolerated. Use enough spray volume for uniform coverage by ground application. The amount of water required for low volume applications may vary from 20 to 50 gallons of spray per acre. For high volume applications 25 to 240 gallons/acre, or more, of spray may be necessary for good coverage.

#### USE PRECAUTIONS

Don't overdo. Do not apply when temperatures exceed 80°F and humidity is high. Do not allow spray drift to cotton, soybeans, tomatoes, tobacco, grapes, fruit trees, flower and vegetable garden crops, ornamental plants, shrubs, trees, and other hormone herbicide sensitive, desirable plants. Do not apply when wind speed is sufficient to cause unacceptable drift. Use coarse sprays and lower nozzle pressure to aid in avoiding spray drift. Do not use nozzles which produce fine spray droplets under high pressure. The use of thickening agents or anti-drift additives and drift-reducing equipment is of value in preventing spray drift. Care should be taken not to make applications where runoff could carry the chemical to non-target areas. See Environmental Hazards section on this label. Local spray conditions will vary. Check local recommendations first.

#### NOTICE

LESCO, Inc. warrants that this herbicide conforms to the chemical description on its label. When used in accordance with label directions under normal conditions, this herbicide is reasonably fit for its intended purposes. Since timing, method of application, weather, plant and soil conditions, mixture with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks on any such use.
