OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

SUBJECT: Label Amendment Submission of 09/09/93 in Response to PR Notice 93-7
EPA Reg. No. 10404-74
LESCO PRE-M WP

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, successfully **REMOVES THE PRODUCT FROM THE SCOPE** of PR Notice 93-7 once the comments (if any) on the attached sheet are addressed. Other than the alterations (if any) listed on the attached sheet, no further alterations to the labeling are necessary to reflect the requirements of the Worker Protection Standard.

Since your amendment proposes to delete uses directly and/or to delete uses implicitly through the use of exclusionary statements, the Agency will publish in the Federal Register a notice of receipt of your amendment to delete uses, as required by section 6(f)(1) of FIFRA. The Agency will defer action for 90 days from the date of the Federal Register notice to give affected minor users an opportunity to try to persuade you to retain the uses(s). When the comment period has expired, the Agency will approve the amendment unless you have withdrawn it, and stamp the amended labeling "accepted." Your stamped-accepted labeling will then be sent to you.

As described in Supplement A of PR Notice 93-11 (self-verification option), you may sell and distribute product bearing the submitted labeling before you receive a copy of your stamped-accepted labeling. Note that your registration is not amended until the comment period required by section 6(f)(1) of FIFRA has expired and the Agency has approved the amendment. Therefore, you may withdraw your proposed amendment at any time during the comment period and until you receive your stamped-accepted labeling.

Sincerely,

James Tompkins, Deputy Chief
Registration Support Branch
Registration Division (7505W)

**WORKER PROTECTION STANDARD
CERTIFICATION STATEMENT
WHEN DEVIATIONS ARE PROPOSED**

I certify that the revised labeling being submitted for LESCO PRE-M 60 WP Herbicide, EPA Reg. No.10404-74, is in complete accordance with the labeling requirements of PR Notices 93-7 and 93-11, which reflect the requirements of EPA's labeling regulations for worker protection statements (40 CFR part 156, subpart K), except where noted. I have, in one or more places in the revised ~~labeling, proposed changes that deviate from the exact language or~~ location specified in the PR Notices. I have identified all such statements by highlighting them in a way that distinguishes them from any other label revisions. I have proposed no changes to this labeling other than those required to comply with 40 CFR part 156, subpart K. I understand that EPA cannot guarantee to render its decision on revised labeling not in complete conformance with PR Notice 93-7 by 04/21/94. I understand that it would be a violation of FIFRA if I or my supplemental registrants were to sell or ~~use, distribute, or produce this product after 04/21/94, without amended labeling~~ complying with the requirements of 40 CFR part 156, subpart K.
