PRE-M Plus Fertilizer With 0.86% Pendimethalin + Fertilizer

PREMISES/ WEED CONTROL... Active Ingredients... Total... 1.75% Poly Phos (P)

KEEP OUT OF REACH OF CHILDREN CAUTION

In case of emergency contacting life or property involving this product, call day or night Chem Line 1-800-624-6888.

PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS CAUTION: Causes eye irritation. Avoid contact with eyes, skin, or clothing.

STATEMENT OF PRACTICAL TREATMENT EXPOSURE: Flush eyes with plenty of water. IRRITATION: Wash with plenty of soap and water.

ENVIRONMENTAL HAZARDS This product is toxic to fish. DO NOT apply directly to water, to areas where surface water is present, or to landfilled areas below the mean high water mark.

DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at time of pesticide application.

STORAGE AND DISPOSAL STORAGE: DO NOT store above 120°F. Store in original container and keep closed, sealed opened bag by holding top down and securing. DO NOT contaminate water, food or feed by storage or disposal.

GENERAL INFORMATION LESCO PRE-M PLUS FERTILIZER is a combination preemergent herbicide and fertilizer formulated to provide control of annual grasses and certain broadleaf weeds found in lawns.

LESCO PRE-M PLUS FERTILIZER controls weeds as they germinate but will not control established weeds.

Unusually cold, excessively wet, or hot and dry conditions that delay germination or extend germination over a long period of time may reduce weed control. Applied according to label directions and under normal growing conditions, LESCO PRE-M PLUS FERTILIZER will not cause turf injury.

Smelling diseases, cold weather, excessive wetness, high soil pH, high soil salt concentration, or drought can weaken turfgrass and increase the possibility of turf damage from LESCO PRE-M PLUS FERTILIZER.

APPLICATION Apply product uniformly of the recommended rate using a properly calibrated spreader (see table below for approximate settings). The efficacy of LESCO PRE-M PLUS FERTILIZER will be improved if the application is followed by manual or mechanical weeding or by application of another herbicide. This will remove the product from the turfgrass foliage and establish a preemergent herbicide barrier in the soil.

Table with columns: Spreader, Spread Rate, Coverage Width, Recommended Rates (lb. per 1000 sq. ft.) for 2.2, 4.0, 8.0. Includes important notes about spreader calibration.

EPA Reg. No. 10404-82 EPA Est. No. 10404-04-04 F305 Manufactured by LESCO, Inc. 2005 Lake Road, P.O. Box 18815 Rocky River, Ohio 44118

Table with columns: Turfgrass Species, Rate of LESCO PRE-M PLUS, Comments. Lists various grass types and their corresponding application rates and timing.

*Not for use on greens of golf. The efficacy of LESCO PRE-M PLUS FERTILIZER will be improved if the application is followed by one-half inch of rainfall or its equivalent in overhead irrigation.

PRECAUTIONS Use only on well established turfgrasses with a dense and uniform stand. On newly planted areas, application should not be made until the turfgrass has filled in and has been mowed at least four times.

WARRANTY LESCO warrants that this herbicide conforms to the chemical description on this label. When used in accordance with label directions under normal conditions, this herbicide is reasonably fit for its intended purpose.
