Susan Spencer LESCO, Inc. 15885 Sprague Road Strongsville, OH 44136

Subject: Label Amendment EPA Reg. No.: 10404-95, 10404-39, 10404-96, 10404-94

Dear Ms. Spencer:

1

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided you make the following label changes.

Atrazine 0.45% Plus Fertilizer

1. Under the heading "Storage and Disposal" change "Storage" to "Pesticide Storage".

Atrazine 0.76% Plus Fertilizer

1. Under the heading "Storage and Disposal" change "Storage" to "Pesticide Storage".

Atrazine 0.92% Plus Fertilizer

1. Under the heading "Storage and Disposal" change "Storage" to "Pesticide Storage".

Atrazine 1.05% Plus Fertilizer

1. Under the heading "Storage and Disposal" change "Storage" to "Pesticide Storage".

Amended labeling will supercede all previous accepted ones. A stamped copy of labeling is enclosed for your records. Submit one (1) copy of final printed labeling before you release the product for shipment. If you have any questions please call Erik Kraft at 703-308-9358.

٩

Sincerely James A. Tompkins

Product Manager 25 Herbicide Branch Registration Division (7505C)

FIRST AID			
If swallowed	 Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by the poison control center or doctor. Do not give anything by mouth to an unconscious person. 		
If in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.		
Jn skin or	Take off contaminated clothing.		
clothing	Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.		
If inhaled	 Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. 		

treatment information. PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin or inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Loaders, applicators, and other handlers must wear long-sleeved shirt, long pants, shoes and socks.

Do not apply granular lawn products by hand. Avoid contact with hands or skin. Broadcast applications must NOT be made using hand-held devices, such as a belly grinder or handheld rotary applicator. Such equipment may only be used for spot treatments.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Loaders, applicators and other handlers must wear long-sleeved shirt and long pants, shoes and socks; waterproof gloves. Follow manufacturer's instructions for cleaning/maintaining PPE. If no h instructions for washables exist, use detergent and hot water. Keep and wash PPE separately

other laundry.

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

Atrazine can travel (seep or leach) through soil and can enter ground water which may be used as drinking water. Atrazine has been found in ground water. Users are advised not to apply Atrazine where these soils are very permeable; i.e., well-drained. Your local agricultural agencies can provide further information on the type of soil in your area and the location of ground water.

This pesticide is toxic to aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Runoff and drift from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

Do not apply this product through any type of irrigation system. When tank-mixing or sequentially applying Atrazine or products containing Atrazine, the total pounds of Atrazine applied (Ibs ai/A) must not exceed the specific seasonal rate limits as noted in the use directions.

Turfgrass at Residential Sites (including homes, daycare facilities, schools, playgrounds, parks, recreational areas, and sports fields.

This product must be watered in immediately after application. Watering in must be performed by the commercial applicator or the commercial applicator must provide the following instructions to the resident or owner in writing:

-This product must be watered in immediately

Do not enter or allow others (including children or pets) to enter the treated areas (except those involved in the watering) until the watering in is complete and the surface is dry.
 For any requirements specific to your State or Tribe, consult the agency responsible for pesticide

regulation.

ANY USE OF THIS PRODUCT IN AN AREA WHERE USE IS PROHIBITED IS A VIOLATION OF FEDERAL LAW. Before using this product, you must consult the Atrazine Watershed information Center (AWIC) to determine whether the use of this product is prohibited in your watershed. AWIC can be accessed through <u>www.atrazine-watershed.info</u> or 1-866-365-3014. If use of this product is prohibited in your watershed, you may return this product to your point of purchase or contact LESCO for a refund.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. <u>Do not enter</u> or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. <u>PPE required for early entry</u> to treated areas that is permitted under the Worker Protection Standard and that involves contract with anything that has been treated areas that is permitted under the worker Protection.

Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralls, shoes plus socks, and chemical resistant gloves, such as any waterproof material.

Annual Bluegrass

WEEDS CONTROLLED OR SUPPRESSED Cutleaf Evening Primrose Oxalis (Common and

Best weed control will result if applied before weeds sprout since the product acts as a "preemergent" and also as a "post-emergent" herbicide. Established weeds are harder to kill and may require an additional application in the fall or spring. For newly seeded centipede, wait until grass has been mowed at least once. Do not plant "spring" within one month after application, or seed within 6 months after application. For broadleaf weeds apply anytime the weeds are present and actively growing. Early spring application is recommended for best control such as January 1st up to March 1st, otherwise it may be applied up to June 15th with good weed control.

For pre-emergence weed control (see above) apply before seeds germinate. A fall application will be needed for control of certain annuals such as Chickweed, Henbit, Rabbit Tobacco, Florida Betony and Evening Primrose. In case of heavy weed infestation or low soil moisture, a repeat application may be necessary. Wait 2 months for a repeat application. Apply when air is calm to prevent particle wind drift. Apply this product only when grass blades are dry. To verify proper application timing consult your State Agricultural Extension Service, Turfgrass Specialist.

HOW TO APPLY

Apply 3.74 lb to 5.0 lb uniformly over 1,000 sq ft of lawn area, (equivalent to the required 1.5 - 2.0 lb Atrazine per acre). Use the lower rate for average weed problems; the higher rate for heavy weed population. Do not exceed recommended rates. Do not apply more than 4 lb a.i. Atrazine (2 applications at 5.0 lb product) per acre per year. Apply to dry grass. This product must be watered in the total table and table and table at the table at the table at the table at the table at ta in immediately after application.
