## PEDIGREE FLEA & TICK SPRAY

### HOW TO USE:

1. Remove protective cap.
2. SHAKE CAN BEFORE USING, point nozzle at area to be treated, press button to release spray.
3. Hold can about 12 inches from dog or cat's body. Spray directly on Ticks, where possible.
4. Use in short bursts. Hold container upright.

Spray Flea & Tick Killer directly on dog or cat. Start spraying at the tail, moving can rapidly to make sure that the animal's body is covered including the legs and under the body. As you spray, fluff the hair so that the spray will penetrate to the skin. Make sure spray wets ticks thoroughly. Do not spray into the eyes, face or scrotum. Repeat as needed.

**WARNING:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130 F. may cause bursting. Never throw container into fire or incinerator.

Remove for one hour (or cover) fish bowls from room in which spray is used. Cover food stuffs and utensils to avoid direct contact and or contamination of these objects while spraying. Keep out of reach of children.
