This product can be used around foodstuffs and utensils if they are protected from direct contact during spraying. Keep out of reach of children.
Harmful if swallowed. Avoid contact with skin.

USDA Reg. No. 3410-25

Kills Certain Beetles, Mites, Aphids, Slugs, Worms and Certain Other Chewing and Sucking Insects on Plants.

CAUTION! CONTENTS UNDER PRESSURE
Keep out of reach of children
See side panel for additional instructions
NET WT. 14 OZ.

CAUTION - Do not apply this spray to any edible crop. Avoid spraying in sunlight during the hottest daylight hours.

Do not use on cyclamen and nasturtium plants.

Store can upright in a cool place not over 120°F. Do not place on hot surface. Do not puncture the can or throw can into fire or incinerator.

Cover or remove fish bowls for one hour. Cover exposed food and utensils.

DIRECTIONS - 1. Shake well before using. 2. Remove protective cap. Hold can upright and point nozzle away from you. 3. Press button down to spray. 4. Spray plants from a distance of 8 to 12 inches. Repeat treatment as needed.

FOR INDOOR AND OUTDOOR USE on aster, chrysanthemum, dahlia, rose, sweet pea, ornamental evergreens and many other house and garden plants.

KILLS SUCKING INSECTS: Aphids, leafhoppers, spotted mites, tarnished plant bugs, white flies when sprayed directly on the insects.

KILLS CHEWING INSECTS: Cabbage worm, flea beetle, rose slug, rose chafer, aster beetle.

FOR BEST RESULTS spray in evening or on a cloudy day when air is still. Spray rows at the rate of one foot per second. For heavy growth spray row or plants on both sides. Use slow sweeping motion holding the dispenser about 8 to 12 inches from foliage. Spraying should begin when insects first appear and should be repeated as needed.
